

**HARRISBURG'S NEW FIRE TRUCK**, as it was being prepared for tests at the lagoon in Harrisburg Township park yesterday afternoon. Standing beside the truck (left to right) are Chief of Police Ross Lane, Commissioner Charles R. Hine, Commissioner Don Wil-

## City's New '56 Fire Truck Passes All Tests

Harrisburg's new 1956 model fire truck passed all its tests yesterday afternoon.

"It passed each requirement with plenty to spare," remarked Fire Chief L. G. Martin after the big new fire-fighting apparatus was put through numerous tests at the lagoon in Harrisburg Township park.

The tests, conducted by Warren G. Little of the state inspection bureau, lasted for three hours. It was tested two hours at volume, a half hour at pressure and a half hour at series.

Martin said that the requirements on a spurt test were 550 gallons per minute, that the Harrisburg truck ran 600 gallons per minute at 170 pound pressure.

The new truck arrived shortly after noon yesterday and it was decided that the lagoon would be a better place for tests than the reservoirs north of town, where

they had been scheduled. All the city officials and a number of other interested persons were present to see the tests run off by Little and by representatives of the Towsers Fire Equipment Co. of Freeburg, Ill., which built the truck on a GMC chassis bought through Harper Motor Sales.

The new truck is painted with white enamel, and has lots of aluminum on it.

It has a 500 gallon capacity booster tank, a 500 gallons per minute pump, an auxiliary pump which pumps 250 gallons per minute to pump from wells and ponds in rural areas and which also can be used off the booster tank.

It has an electric prime pump, a closed-in cab with body tie-in, two booster reels with electric rewind, and one and a half inch rear discharge from which can be attached a third line, if necessary, and 500 feet of new hose.

**Public Invited to See Truck**  
It has a 35-foot extension ladder, a 14-foot roof ladder and a 14-foot attic ladder, all aluminum.

Yet to arrive is a Rockwood foam pickup, which will mix foam with water for combating oil blazes.

Fire Chief Martin today invited the public to inspect the new truck at the fire department. He said somebody would be present to explain its features.

The city has been using a 1933 Diamond-T and a 1942 Ford truck for its fire-fighting apparatus. The 1938 truck is being sold to Brookport for \$2,000 and Chief Martin said he will have it ready for delivery Saturday.

**SIU Graduate Student Receives Rotary Foundation Fellowship**  
CARBONDALE, Ill. — A Southern Illinois university graduate student will spend a year in Great Britain studying on a Rotary Foundation fellowship.

John A. Ziegler, 23, New Athens, is one of 120 students in 32 countries who will receive the \$2,500 grants.

**LOCAL FIRE FIGHTERS** and other interested persons watch as a stream is played from the new Harrisburg fire truck. The water is being taken from the lagoon and is being spurted right back, only a couple of hundred feet up the way. The new truck did more than it was supposed to do in its tests.

## New \$1 Hour Minimum Wage Law In Effect Next Thursday

CHICAGO — About 30,000 Illinois workers will get pay hikes next Thursday when the new \$1 an hour minimum wage law takes effect, a Labor Department official estimated today.

Thomas O'Malley, regional director of the department's wages and hours division, said about 30,000 of the 1,863,800 Illinoisans covered by the federal wage law now make less than \$1 an hour.

Other Illinois workers who are now being paid above the \$1 level may nevertheless benefit, too. For the higher wage floors are expected to have some inflating effects on other wages.

O'Malley's office said the law increasing hourly minimums from the present 75 cents to \$1 will have less effect in the Midwest than in the South.

An estimated 28 per cent of all manufacturing workers in the South now are paid less than \$1 an hour. In the Midwest, only about 4 per cent get less than that.

A Labor Department spokesman said many of those affected in this area will be workers in the apparel industry, boot and shoe workers, those who do work like addressing and needle work at home, and some white collar workers.

White collar workers get for pay boosts will consist largely of people in small banks, telephone exchanges and insurance work, the spokesman said.

The official said that generally speaking, the new wage law probably will have more effect in southern Illinois, where wage levels are lower, than in the north.

One southern Illinois industry which may feel the effects more than others is the sawmill industry, he said. Most lumber is shipped across state lines and thus the industry comes under federal regulation.

To enforce the new law, the Labor Department has opened a new office in Springfield, and plans two extra offices here. Fourteen in-

vestigators are being added to check for compliance with the law by Illinois employers who are affected.

The Labor Department expects the law to affect other workers than those now getting less than \$1 an hour. When an employer boosts one man from 90 cents to \$1, he is likely to increase the wage of another man now getting \$1 to a higher level, to maintain a "spread," a spokesman explained.

"We won't know for several months just how many people have been affected," he said.

## Hattie Carnegie, Noted Fashion Designer, Dies

NEW YORK — Hattie Carnegie, 70, an Austrian immigrant who helped put New York on the world fashion map, died Wednesday after a long illness.

She designed women's clothing ranging from exclusive creations for wealthy society matrons to the official WAC uniform and a modern nun's habit for a Carmelite order.

Miss Carnegie was born in Vienna but came to the United States with her parents while in her teens. She quit school at 11 to help out her poverty-stricken family.

**To Organize Barracks For World War I Veterans Here Saturday**  
An organization for Veterans of World War I is scheduled to be accomplished Saturday evening at the city hall in Harrisburg.

Work on the organization has been in progress for several days under the leadership of Earl Estes and Toby Feazel and applications for membership from a number of War I veterans have been received.

At the meeting Saturday the charter will be closed and officers of the Barracks elected for the coming year, it has been announced.

The organization, to further the interests of veterans of War I, is now represented in more than five hundred communities in the nation, including fifty in Illinois.

All Harrisburg veterans and their wives are urged to attend the meeting and all veterans interested in joining the organization should bring their discharge papers, it was announced by Lovell Hess of Eldorado, who is Deputy Chief of Staff, Dept. of Illinois, Veterans of War I.

**Boy Should Get Another Girl**  
FORT WORTH, Tex. — Police had this explanation today from the mother of a 14-year-old boy who was arrested three times for automobile theft in one week:

"He goes with a little girl down the street and she won't date anybody unless he has a car."

A brother, Finley Aldridge, and a sister, Mrs. Ollie Jackson, preceded him in death.

**Death Takes John W. Aldridge**  
John W. Aldridge, 1308 Hobson street, died at 7 a. m. today in the Harrisburg hospital at the age of 74. He had been seriously ill for the past four weeks.

He was a retired miner and township road maintenance man. The son of Will and Ella Aldridge, he was born in Pope county January 12, 1882. He married the former Bessie Jenkins who survives him. Mr. Aldridge had been a resident of Harrisburg for 45 years.

Tentative funeral plans are for Saturday at 2 p. m. in the chapel of the Gaskins funeral home, Rev. William Fuson, assisted by Rev. E. C. Fisher, will officiate and burial will be in Liberty cemetery.

He is survived by his wife and the following children: Layton, Bill and John Wayne, all of Harrisburg; Mrs. J. P. (Zella) Gschwend, Phoenix, Ariz.; Mrs. Ralph (Reba) Hull, Bob Aldridge, also of Harrisburg; three brothers, Sherman and Harry Aldridge, both of Harrisburg, and Jeff Aldridge of Mt. Carmel; two sisters, Mrs. Anna Dowdy, Harrisburg, and Mrs. Myrtle Hawkins, Carrier Mills; 11 grandchildren and two great-grandchildren.

# Release of Uranium to Aid Power Development

## Special Senate Group to Speed Lobby Reforms

**Expect Changes In Law Before November Elections**

WASHINGTON (AP) — The Special Senate committee created to investigate lobbying may try to get some reforms written into law before the November elections, an authoritative source said today.

One prospective committee member who would not be identified said the group would try to report on some features of its investigation in time for Congress to pass new laws governing the fall campaign.

Both Democrats and Republicans were expected to have their choices for the eight-man committee ready for submission to the Senate today. The Senate set up the special committee by a 79-1 vote Wednesday, giving it broad powers to investigate any and all attempts to influence the Senate, any senator, Senate candidate or government employee "improperly or illegally."

The resolution creating the committee reached the floor covering only attempts to influence senators. But Senate Democratic Leader Lyndon B. Johnson (Texas) and Republican Leader William F. Knowland (Calif.), both of whom backed the measure, quickly accepted amendments expanding the field of inquiry to cover candidates for the Senate and any officials or employees of the executive branch.

Sen. William Langer (R-ND) cast the only vote against the resolution. He said he thought some existing Senate committee should do the job.

Informed sources told the United Press Democrats had already selected for committee membership Sens. Albert Gore (Tenn.), John F. Kennedy (Mass.), John L. McClellan (Ark.) and Clinton P. Anderson (NM). Gore was regarded as the likely chairman.

There was a delay in selecting Republican members which stemmed in part from difficulty in locating Vice President Richard M. Nixon for his concurrence, since Nixon must officially appoint the committee from the party leaders' choices. Nixon was out of town at an undisclosed spot Wednesday and was not available.

**Woman is Unaware of \$1,400 Loss Until Purse is Returned**  
CHICAGO — Mrs. Mary Piekarz, who doesn't trust banks, mislaid a purse containing \$1,400 in a store Wednesday and was unaware of her loss until it was returned to her four hours later.

The tank dragged the car 30 feet after hitting it. The station wagon was flattened to about a height of two and a half feet. Rescue workers said they tore off the station wagon's top "like a sardine can" to remove the victim.

Army Capt. Jack A. Herman, who saw the collision, said he estimated the oncoming tank's speed at between 30 and 40 miles per hour.

**Witnesses to Testify on Depressed Areas at Five Hearings Feb. 25-27**  
About 75 witnesses are scheduled to testify at five formal hearings in Southern Illinois towns, Friday, Saturday and Monday, Feb. 24-27 when the Senate Labor Subcommittee will be gathering evidence on depressed areas in connection with Senate Bill 2663.

The field hearings in Beul, Litchfield, Johnston City, Mounds and Rosiclare will be conducted by Senator Paul H. Douglas (D-Ill.). Subcommittee chairman, to enable local witnesses to present the unemployment problems of the area.

On the basis of testimony gathered in southern Illinois and elsewhere, the Subcommittee will make recommendations on the Domestic Point Four Bill which would make \$200,000,000 available to areas with serious economic needs. The bill is described as a measure to "help these areas help themselves."

The hearings will cover subjects like the closing of coal and fluorspar mines in southern Illinois, withdrawal of defense contracts, lack of industries, industrial water and gas shortages, and steps taken to attract new industry. Needs for programs of public facilities will be covered.

The Subcommittee hearings will be at: Beul, American Legion Home 10:00 a. m., Friday; Litchfield, American Legion Home, 2 p. m., Friday; Johnston City, high school auditorium, 10:00 a. m., Saturday; Rosiclare, community building, 10:00 a. m., Monday, and Mounds, high school, 2:00 p. m., Monday.

Saturday at 8:00 p. m., Senator Douglas will give a talk on proposed depressed areas legislation in the Carbondale Community high school.

**Witnesses at the Johnston City**  
and Rosiclare formal hearings will include:

**JOHNSTON CITY:** Maurice Campbell, president, Benton Civic Industrial Association, Benton; John D. Douglas, president, Bend Lake Conservancy District, Bend; Isadore Friedman, Industrial Committee, Du Quoin; Rubin G. Soderstrom, president, Illinois AFL, Springfield; Paul Powell, state representative, Vienna; M. Bozarth, director, Southern Illinois, Inc.; Hugh White, president, UMWA District 12, Springfield; Clyde Brewster, director, Southern Illinois, Inc., Herrin; Robert S. Henderson, executive secretary, Chamber of Commerce, West Frankfort; Art Laird, president, Mt. Vernon Chamber of Commerce; Neil Thurmond, mayor, Johnston City; Ralph Cooksey, district council, International Hodcarriers, Carbondale; Eugene Keathly, Colp; Eugene Hughes, board member, Progressive Mine Workers Union, Harrisburg; J. O. Jones, International Brotherhood of Electrical Workers, West Frankfort; Eugene Comte, Chamber of Commerce, Murphysboro; Alice Beardslee, community consultant, Department of Community Development, Southern Illinois university.

**ROSLICLARE:** Roy Hensley, president, Rosiclare Development Association; Jacob Blechstein, Rosiclare Lead and Fluorspar Co.; Ralph McClinton, UMWA District 50, Marion; O. K. Kerley, Banker, Golconda; Mart Watson, director, Community Development Committees, Eldorado; Stanley Veach, superintendent of Vienna grade schools; C. L. McCormick, Vienna; Jess Chandler, chairman, Labor Association for Industrial Development, Eldorado.

## Body of Illinois Airman Found in Oklahoma; Hitchhiker is Sought

MADILL, Okla. — A federal warrant was issued today for the arrest of Prentice Frank Day, 22-year-old Littleton, N. Y., hitchhiker and suspect in the death of an Illinois airman.

D. A. Bryce, FBI agent in charge of the Oklahoma City bureau, said the warrant charges Day with the interstate transportation of a stolen automobile.

Marshall County, Okla., Atty. O. C. Barnes filed a murder charge against Day, accusing him of killing Airman T. C. Roger C. Timm of Evanston, Ill.

Timm's body was found Tuesday just off U. S. 70 on a little-used country road near Madill in southern Oklahoma. He was identified tentatively from clothing and a military serial number.

The FBI established definite identification Wednesday night by checking the fingerprints of the victim through Washington. They matched those of Timm.

Oklahoma Crime Bureau Chief O. K. Bivins described Day as 6 feet, 2 inches tall, slender, with a "hatchet-thin" face. He said he may be armed and is mentally ill.

Timm had been shot twice, once in the back and once in the back of the head, with a .32-caliber pistol. Bivins said either wound would have killed him.

Timm was en route to an air force base in Abilene, Tex., where he had been due to report on Sept. 15, when he disappeared.

His car was found abandoned, a bullet hole in the side, near San Antonio. His billfold turned up Friday on a bus in Tulsa. His traveling bag was found Monday in a Chicago bus station.

Bivins believes Timm may have been killed as long ago as Feb. 15. He was still bleeding, Bivins said, when dumped out of the car near Madill.

**Anna School Board Fails to Renew Houghton Contract**  
ANNA, Ill. — The Anna-Jonesboro school board has decided not to renew the contract of High School Principal Paul Houghton.

None of the board members would give a reason for the decision made Monday night at Houghton's contract, which runs out July 1.

Houghton, who has been principal at the Anna-Jonesboro High School for eight years, said he had no comment on the action and no immediate plans for the future.

Houghton coached at Anna-Jonesboro for nine years before becoming principal. He coached at Marion High School before going to Anna.

**Death Takes Mrs. Jacob Siddall; Funeral Saturday**  
Mrs. Katie Siddall, 77, died at 5 p. m. yesterday in the Lightner hospital. For the past nine years she had made her home with her sister, Mrs. J. C. Robertson, 512 East Poplar street.

Mrs. Siddall had been in poor health since last summer and had been in the hospital for the past two weeks, but death was unexpected, due to coronary occlusion.

She was the widow of Jacob Siddall who died 10 years ago. Before his death they resided in Equality. She was the daughter of Willis Alan and Anna Aydelott.

Mrs. Robertson is the only survivor of the immediate family, along with six nieces and nephews. A brother, A. T. Aydelott, preceded Mrs. Siddall in death in 1952.

The body lies in state in the chapel of the Harrisburg funeral home where services will be held Saturday at 2 p. m. Rev. Joe Morman will officiate and burial will be in the Elmwood cemetery at Equality.

**Receives Word of Death Of Nephew, Everett Douglas, in Connecticut**  
Mrs. Clara Edwards, 1209 South Webster street, received word Wednesday of the death of her nephew, Everett Douglas, 62, of Danbury, Conn. He was a son of the late Willis Douglas of Harrisburg and his wife, who survives. The former Eva Pippin of Vienna. They have three daughters.

For many years Mr. Douglas operated a large dairy farm near Danbury. During World War 2 he did some special work for the government and his dairy barn was converted into a factory. He received a leg injury which had given him much trouble and which is believed to have caused his death.

**The Weather**  
ILLINOIS: Cloudy and warmer tonight. Occasional rain south and chance of some rain or snow central tonight. Friday cloudy, occasional rain or snow likely north, cloudy and warmer with occasional showers south. Low tonight upper 20s extreme north, 35-40 extreme south. High Friday 35-40 extreme north, upper 50s extreme south.

## Expect Foreign Requests for Pacts with U. S.

**88,000 Pounds of Uranium Set Aside By Eisenhower**

WASHINGTON (AP) — Atomic sources said today that President Eisenhower's uranium announcement will act as a shot in the arm for nuclear power development here and overseas.

They predicted a raft of foreign applications for bilateral power agreements now that there is assurance the necessary atomic fuel will be available.

The President said Wednesday that 80,000 pounds of fissionable uranium-235 will be made available as need arises — half of it for atomic power plants and research in this country and half for qualified foreign nations.

So far this country has signed no atomic power agreements with any countries except Belgium, Great Britain and Canada. Those agreements were special ones based on the special atomic relations, stemming from World War II, with those nations.

The uranium set-aside announced by the President would affect other friendly free nations willing to accept U. S. assistance under terms yet to be published.

As of now, the United States is discussing power agreements with Australia, Switzerland, The Netherlands and several other not publicly identified countries, according to the Atomic Energy Commission.

Additional nations now are expected to enter into power talks with U. S. officials.

Officials predicted the move would prove a sharp blow to Soviet "talk" about Russian advances in peaceful use of nuclear power.

President Eisenhower announced at Thomasville, Ga., Wednesday the United States will distribute 40,000 kilograms (more than 40 tons) of uranium-235 for atomic research and research at home and overseas.

That amount of uranium-235 packs enough energy to devastate 40,000 Hiroshimas. However, experts stressed the uranium will be made available in a form not easily convertible to military use.

Half of the 40,000 kilograms will be set aside for leasing in the United States, the announcement said.

The rest will be leased or sold abroad. The President said "provident safeguards" will be taken to make sure the uranium is used for peaceful purposes.

The uranium will be made available to all nations except Russia and its satellites and nations like Great Britain that are already producing it.

"This will give the boys in the Kremlin something to think about," said one U. S. official who asked not to be quoted by name. "The Russians can't possibly hope to match this."

Senator Henry M. Jackson (D-Wash.) said the uranium commitment was "unequivocally demonstrated to doubting Thomases abroad that we are staunch advocates of the peaceful atom." He joined Chairman Clinton P. Anderson (D-NM) of the Joint Congressional Atomic Energy Committee in hailing the move as a "valuable step in the right direction."

**Jim Taylor, 73, Dies at Eldorado**  
Jim Taylor, 73, retired miner residing at 1001 Jefferson street in Eldorado, died at 7:30 p. m. Wednesday in the Pearce hospital. He was a native of Beaver Dam, Ky., but had lived in Eldorado for the past 30 years.

He is survived by his wife, Minnie, and the following children: four sons, Carroll of Evansville, Ind., Hubert, Chandler, Ind., Marshall, Chicago, and Mitchell of Broomville, Colo.; five daughters: Mrs. Delia Martin, Richmond, Ky.; Mrs. Aleen McVay, Princeton, Ind.; Mrs. Bettie Dillard, Eldorado; Mrs. Maudie Ford, Wayland, Ky.; and Mrs. Beulah Curry, Louisville, Ky.; one brother, Charles Taylor, Beaver Dam, Ky., and four sisters: Mrs. Ellen Sharp, Mrs. Lora Tenness, and Mrs. Lydia Taylor, all of Hartford, Ky.; and Mrs. Tessie Hughes, Whiting, Ind.; 22 grandchildren and eight great-grandchildren.

The funeral will be held at 2 p. m. Saturday at the Church of God in Eldorado with Rev. G. C. Spencer officiating. Burial will be in Leavell Hill cemetery near Equality.

The body will lie in state at the Martin funeral home until time for the funeral.

**BIBLE THOUGHT FOR TODAY**  
This is My commandment that  
ye love one another as I have loved  
you.—John 15:12.  
Parental love comes closest to  
this ideal, it is worthy of emulation.

## Withstanding The Pressures

**Editorial — BY BRUCE BLOSSAT**  
President Eisenhower once more  
has exhibited his political cour-  
age in the face of insistent elec-  
tion-year pressures on the farm  
issue.

He has indicated he and his ad-  
ministration are standing fast  
against any return to rigid 90 per  
cent farm price props such as  
have now been approved by the  
Senate Agriculture Committee.  
That committee recently turned  
out a farm bill which can only be  
described as a deliberately con-  
trived contradiction. It specifies  
re-establishment of rigid supports  
in one breath, and in another en-  
dorses the President's "soil bank"  
plan which would pay farmers for  
reducing productive acreage.  
In other words, on the one hand  
it would encourage farmers to  
produce more, on the other to  
turn out less. This would seem  
to be one of the more extreme ex-  
amples of the politicians' stand-  
ard effort to provide something  
for everybody.

The lure of high prices artifi-  
cially maintained by government  
supports did much to fill the na-  
tion's crop warehouses with over-  
flowing surpluses. How a return  
to high rigid supports is expected  
to help solve this problem is a  
mystery.

The whole trend and meaning  
of the President's 1956 farm pro-  
posals is in the opposite direction.  
The "soil bank" plan is an ar-  
rangement aimed at putting pro-  
duction on a more manageable  
basis.  
The program calls first for an  
acreage reserve under which cot-  
ton, corn, wheat and rice growers  
would be paid in cash or kind for  
retiring acres. It also would pro-  
vide for a "conservation reserve"  
affecting all crops, with farmers  
encouraged to put marginal or  
poor soil back into grasses, forest  
land or the like.

The Senate bill as now consti-  
tuted is a freak that can only be  
explained by the fears of law-  
makers who imagine they will be  
swept into the discard by the  
wrath of farmers at voting time.  
The committee-endorsed mea-  
sure still may be amended on the  
Senate floor to eliminate the con-  
tradictory proposal for restora-  
tion of high supports. Failing that,  
the House may produce a bill  
more to the administration's lik-  
ing.

But if the present two-headed  
measure goes through Congress to  
the President's desk, the prospect  
seems strong that he will veto it.  
Then, undoubtedly, the lawmakers  
would be asked to start all over  
again with another bill devoted  
solely to advancing the soil bank  
program.

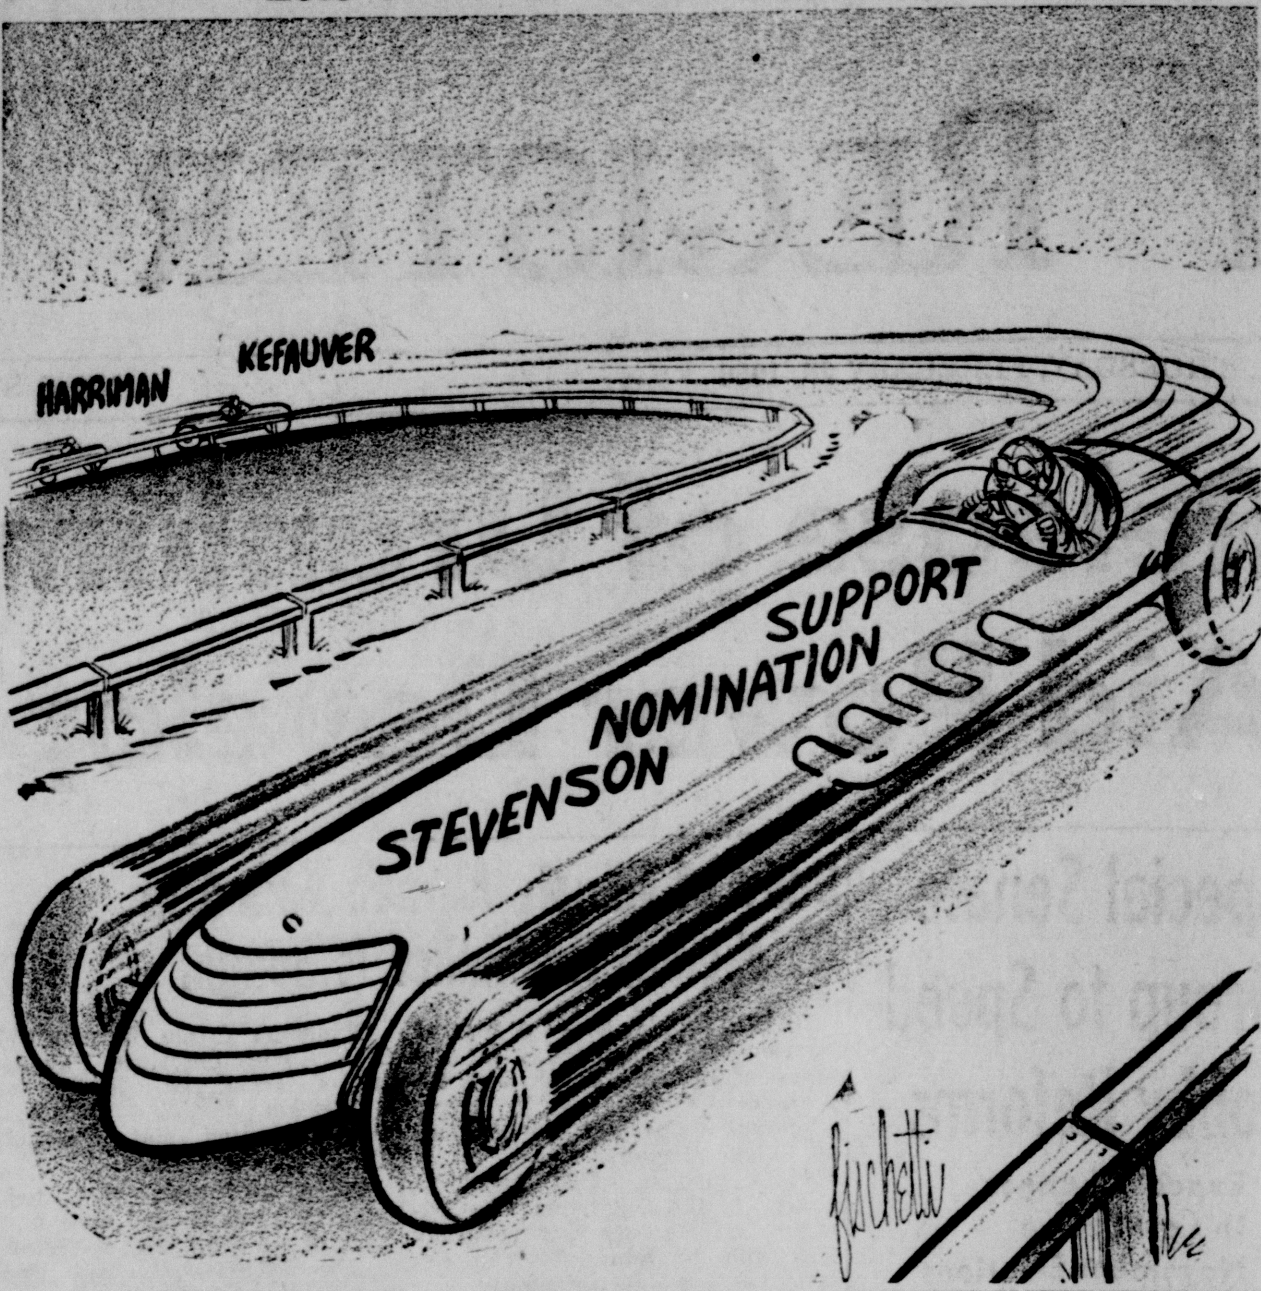

Perhaps this is what many of  
the lawmakers expect. Perhaps  
they want the political credit for  
voting high supports, even though  
they understand the absurd con-  
flict of purpose in the Senate bill  
and realize that both features of  
it cannot sensibly prevail. They  
may find that the farmers will not  
hand out credit for effort that is  
discounted in advance.

## An Inspiration To Youth

You don't have to be a baseball  
addict to understand that the  
country has lost a stalwart citizen  
with the death of the famed Con-  
nie Mack, who managed the Phil-  
adelphia Athletics for 50 years.  
Connie had a grand life, marked  
by many triumphs, willed with  
enduring friendships, always rich  
enough to enable him to sur-  
mount defeat and disappointment.  
Twice he broke up great cham-  
pionship teams and started afresh.  
He enjoyed the challenge of build-  
ing with new, untied materials.  
At all times Connie Mack was,  
as the President said, an inspira-  
tion to American youth in the most  
American of all sports.

On Pentecost Island in the New  
Hebrides, Melanesian daredevils  
make terrifying land dives from  
hillsides sometimes more  
than 60 feet high. The National  
Geographic Society says: "Their  
head-first plunges into loose, spud-  
dy earth are checked only by  
trailing vines tied to their ankles."

## Lots of Power Under That Hood

## The Washington Merry-Go-Round

By DREW PEARSON

**DREW PEARSON Says:**  
Senate Leaders Forget Their  
Own Words In Moving To Neu-  
tralize Gas Lobby Probe; Is-  
raelis Have Good Reason To  
Worry About Arab Tanks;  
Only One Eisenhower Cabinet  
Member Opposed Gas Veto.

WASHINGTON. — Here are the  
chronological steps, taken from  
official records, by which Senate  
leaders have sought to block or  
neutralize an exhaustive probe of  
gas lobbying and political contribu-  
tions.

On Feb. 6. — Both Senators  
Johnson, the Democratic leader,  
and Knowland, the GOP leader,  
stated on the Senate floor they  
would be glad to have Senator  
Hennings of Missouri proceed with  
a sweeping probe of gas lobbying,  
if the Senate would first vote a  
special resolution to probe the  
\$2,500 to Senator Case of South Da-  
kota.

Said Johnson of Texas: "The  
senator from Missouri (Hennings)  
is chairman of the subcommittee  
on Privileges and Elections, and  
his committee possesses ample au-  
thority to investigate any and all  
organizations."

Said Knowland of California:  
"There is ample authority within  
the subcommittee of Privileges and  
Elections to conduct such investi-  
gations as may be necessary."

On Feb. 7. — Senator Hennings  
took the two Senate leaders at  
their word and proceeded to sum-  
mon Senator Case to testify in the  
investigation which Johnson and  
Knowland said his committee had  
a right to make. Whereupon John-  
son summoned Hennings, told him  
he had to drop his probe of the  
Case matter. Johnson also told  
Hennings he had to resign as  
chairman of the Elections subcom-  
mittee.

On Feb. 8. — Hennings was ma-  
neuvered by Johnson into prom-  
ising the Rules committee to resign  
as chairman of the Elections sub-  
committee, the same committee  
which, according to Johnson and  
Knowland, had full power to probe  
the gas lobby.

On Feb. 11. — Hennings did re-  
sign and was immediately suc-  
ceeded by Senator Gore of Tennes-  
see, who issued a forthright state-  
ment that he would conduct a  
sweeping investigation.

On Feb. 18. — Senator Know-  
land, who had said Gore's commit-  
tee had ample authority to con-  
duct such investigations as may be  
necessary stated that Gore's com-  
mittee would be too busy with other  
matters and should either be  
superseded or broadened.

On Feb. 19. — Senator Johnson  
returned from a rest in Texas, be-  
gan working with Knowland to  
broaden and neutralize the Gore  
committee.

Moral. — There is nothing Sen-  
ate leaders want investigated less  
than their own campaign contribu-  
tions.

## BEHIND THE ARAB TANKS

Reason for the Israeli concern  
over the 18 tanks shipped to Saudi  
Arabia is quite simple, also quite  
important.

Egypt and Saudi Arabia operate  
virtually under the same military  
command. The Egyptian military  
mission in Saudi Arabia is larger  
than the American military mis-  
sion. The new Egyptian constitu-  
tion proclaims that Egypt is "an  
integral part of the Arab nation"  
which Premier Nasser defines as  
stretching from the Atlantic Coast  
to the Gulf of Persia, the inference  
being that Egypt is building up an  
Arab super-state which she will  
dominate.

It was Egypt which fomented  
the riots in Jordan, also against  
the British and American embas-  
sies because of Jordan's adhe-  
rence to the Baghdad Pact. On top  
of this, intelligence reports indi-  
cate that Egyptian agents are now  
trying to woo King Saud of Saudi  
Arabia.

So far he has resisted, with the  
result that Premier Nasser's  
agents are warming up to one of  
the king's younger and disgrunt-

led brothers in an effort to stir up  
a palace revolt.

Behind this is the fact that  
Egypt, one of the poorest nations  
in the Near East, envies the tre-  
mendous wealth of oil-rich Saudi  
Arabia and would like to wrap an  
enveloping arm around that area.

So far, they have succeeded in  
getting King Saud to advance  
some of his oil royalties to pay for  
part of the Communist arms im-  
ported from Czechoslovakia. It's  
also suspected that the 18 tanks,  
part of a shipment of 36, will be  
transferred immediately after ar-  
rival from Saudi Arabia to Egypt.  
Significantly, Egypt tried to buy  
40 tanks from the United States  
several months ago and was turned  
down. Shortly thereafter, Saudi  
Arabia ordered 36 tanks.

Note. — Despite this back-  
ground, Prime Minister Eden,  
during his talks with John Foster  
Dulles, urged that Israel cede the  
southern part of the Negev to  
Jordan. This, for the first time  
in history, would create a land  
bridge connecting Egypt, Jordan,  
and Saudi Arabia. It's easy to  
understand why Egypt should want  
this land bridge. It's hard to un-  
derstand why England is promot-  
ing it.

## INSIDE THE CABINET

President Eisenhower deserves  
a lot of thanks for bolstering the  
deteriorated morality of the Sen-  
ate by putting his finger on the gas  
lobby. He arrived at that deci-  
sion on his own. However, it is  
also interesting to know the reac-  
tion of his cabinet when he asked  
their opinion.

Ike did not take a formal vote.  
He merely asked their views.  
First to speak up was Postmas-

ter General Arthur Summerfield  
who comes from Michigan, a big  
user of natural gas. He strongly  
favored a veto.

Secretary of Defense Charles E.  
Wilson, who also comes from  
Michigan, likewise favored a veto,  
though he was not so vigorous.  
Secretary of the Treasury Hum-  
phrey who comes from the gas-  
consuming city of Cleveland ex-  
pressed a similar view.

Some cabinet members, such as  
Secretary of Agriculture Benson  
and Health Secretary Folsom,  
were noncommittal. The subject  
was somewhat outside their baili-  
wick. The only cabinet member  
who actually opposed a veto was  
Secretary McKay, who has con-  
sistently stood with the big util-  
ities in his administration of the  
Interior Department.

Significantly, the cabinet mem-  
ber who most energetically favor-  
ed the veto was Attorney General  
Brownell. He argued at some  
length. Brownell is a former  
chairman of the Republican Na-  
tional committee and one of Ike's  
chief political advisers.

The fact that he and Summer-  
field, also a former GOP national  
chairman, were strong for urging  
a veto may be significant. Ob-  
viously they were thinking in po-  
litical terms, and the effect on the  
electorate if Eisenhower ran  
again.

Note. — Most surprising opinion  
of all was that expressed by Vice  
President Nixon. He also favored  
a veto—despite the fact that 15  
California oilmen kicked in to his  
\$18,000 personal expense fund, and  
despite the fact that he has per-  
formed favors for the oil-gas in-  
dustry while in Congress.

## Berserk Chinese Patient Fatally Slabs Intern in Chicago Hospital

CHICAGO (UP) — An aged Chi-  
nese laborer, crying "You cut me  
once, now I cut you," stabbed a  
young intern to death in Cook  
County Hospital Wednesday.

Dr. Bruno Epstein, 25, died min-  
utes after the laborer, 76-year-old  
Jim Go, stabbed him in the chest  
and abdomen.

Doctors and nurses grappled  
with the berserk patient and finally  
subdued him by smashing a chair  
over his head. He carried two 6-  
inch butcher knives.

The old man had difficulty ex-  
plaining the slaying to police, since  
he speaks little English. Through  
an interpreter, officers pieced to-  
gether the following story:

Jim Go, a dishwasher, was a pa-  
tient in the hospital from Jan. 9  
to Feb. 9. He underwent a hernia  
operation and said he had been in  
constant pain since. Epstein did  
not perform the operation.

On Saturday, Go returned to the  
hospital and asked a doctor he  
believed to be Epstein for drugs.  
The request was refused and Go  
went away convinced that he was  
going to die.

He decided to take the doctor  
who had refused his request along  
with him.

He bought the butcher knives  
and went to the hospital, where he  
found Epstein in a staff room.  
Epstein turned away to see whe-  
ther an examining room was clear

and Go thought he was being de-  
serted again.

Saying "You cut me once, now  
I cut you," he whipped a knife  
from under his coat and stabbed  
Epstein twice. The young man, a  
native of Vienna, Austria, stagger-  
ed into an adjoining room and  
died.

At the police station, Go asked  
his interpreter "What good is my  
life? I don't want to live."

## Minister Calls For Prayer on Eve of Protest

MONTGOMERY, Ala. (UP) — A  
minister called 10,000 Negroes to  
prayer today on the eve of a pro-  
posed mass "pilgrimage" through  
Montgomery streets in protest  
against scores of arrests for boy-  
cotting segregated city buses.

The Rev. R. D. Abernathy, one  
of 67 Negroes rounded up Wednes-  
day and charged with plotting the  
11-week old racial boycott, said he  
expected 10,000 Negroes to gather  
for his prayer at his church to-  
night.

The boycott, started last Dec. 5,  
was demonstrated originally as a one-  
day demonstration protesting the arrest  
of seamstress Rosa Parks for re-  
fusing to move to the Negro sec-  
tion of a bus.

The boycott was continued as a  
means of protesting seating ar-  
rangements under segregation laws,  
not the laws themselves.

The Negroes objected to having  
to stand on buses while seats re-  
mained empty in the section re-  
served for whites.

The boycott, termed about 80  
per cent effective from the start,  
almost immediately caused a 50  
per cent hike in fares to make up  
for revenue losses. It has remained  
as effective, if not more so,  
since the indictments were return-  
ed.

Abernathy proclaimed Wednes-  
day — arranged for day for the 113  
expected to be under arrest by  
then — as "prayer-pilgrimage day"  
to be commemorated by walking.  
Abernathy intimated they would  
converge upon the courthouse.

Sheriff's deputies continued  
rounding up the remaining Negroes  
indicted as leaders instigating the  
racial boycott or helping make it  
work by operating taxis and car  
pools.

## Dorcas Class Meets With Mary Tanner

The February meeting of the  
Dorcas class was held at the home  
of Mary Tanner Monday evening.  
Ilda Hitchcock was assistant host-  
ess.

Nineteen members answered  
roll call. The devotion was given  
by Gerie Russell. A committee  
was appointed to make plans for a  
bake sale or coffee. Closing pray-  
er was given by Blossom Strat-  
ton.

Games were under the direction  
of Juanita Campbell. Prizes were  
won by Gerie Russell, Juanita  
Schwartz Clara Edwards and  
Wanda Fort.

Delicious refreshments were  
served by the hostess. The March  
meeting will be at the home of  
Marie Harris.

## Here They Are!

## Women Better At Bearing Monotony

EAST LANSING, Mich. (UP)—Psy-  
chology tests conducted by a Mich-  
igan State University professor  
suggests that women generally are  
better than men in doing prolonged,  
monotonous work.

But in one-and-one-half hour tests  
given to 20 subjects, both sexes  
scored better in the first 15 min-  
utes than in the remaining hour  
and 15 minutes.

Experiments dealing with sight  
and sound vigilance were conduct-  
ed by Dr. Paul Bakan, assistant  
professor of psychology at Mich-  
igan State. Part of his work was  
done for the U. S. Air Force which  
wants to learn more about vigil-  
ance as it applies to assignments  
such as radar, requiring long ses-  
sions of alert watching.

The research would be beneficial  
for workers in scores of industries  
where monotonous work must still  
be done by hand.

Although he plans a number of  
other experiments—such as tests  
combining sight and sound — Dr.  
Bakan believes a person engaged in  
a lengthy, monotonous task  
"gets into a state somewhere be-  
tween wakefulness and sleep."

"And if errors are to be reduced  
in this kind of work," he said,  
"either the discrimination must be  
made easier or something must be  
done to change the individual."

"Certain amounts of rest or the  
use of such drugs as benzedrine  
have been found to increase alert-  
ness," he said.

In Dr. Bakan's first tests, 10 men  
and 10 women between the ages of  
16 and 35 were asked to watch a  
light for one and one-half hours  
and note changes in brightness.

"In the first 15 minutes the light  
had to be about 16 per cent bright-  
er to be noticed," he said. "But  
after one and one-half hours it had  
to be stepped up about 45 per cent  
for a reaction."

Dividing the subjects into two  
groups, Dr. Bakan noted that the  
"poor" subjects did progressively  
worse, while the "good" subjects  
reached a certain low point and  
then did better.

When the subjects were asked to  
estimate the length of the test—  
actually one and one-half hours—  
their guesses ranged from 15 min-  
utes to four hours.

A Nova Scotian lumbering com-  
munity was named Cleveland in  
honor of President Grover Cleve-  
land in 1891.

## White House Tries to Stem Flood of Reports Eisenhower Will Run Again

By MERRIMAN SMITH  
United Press, White House Writer  
THOMASVILLE, Ga. (UP) — The White House today attempted vainly to stem the growing flood of reports that President Eisenhower was willing to run again.

Almost hourly, Mr. Eisenhower's press secretary, James C. Hagerty, was pelted with a fresh batch of published and broadcast reports that the President had reached a

decision and would be a candidate for re-election.

These reports flowed in from the West Coast to New York, the bulk of them stemming from Washington sources.

Hagerty attempted to stand his ground, however, and continued to forecast that the first authoritative word from the President will be given to the American public and not to a few Republican leaders.

Denies Word From Adams  
He also denied that Sherman Adams, the assistant to the President, had "passed the word" to GOP leaders that the President was a sure thing for a re-election race.

"Has Sherman Adams passed such word?" Hagerty was asked late Wednesday.

"No, he hasn't and I've talked to Sherman Adams. He says he never made any such statement like that at all," Hagerty said.

GOP National Chairman Leonard W. Hall also was mentioned in the published reports as a source of information that the President was willing to stand for re-election.

Hagerty said he checked Adams by telephone, but not Hall. The press secretary felt that his province was the White House staff and not beyond.

"Has a decision of any sort been relayed to anybody?" Hagerty was asked.

Says Would Not Tell  
"Not to my knowledge," Hagerty replied.

Asked if the President had reached his fateful decision, Hagerty enigmatically replied, "I wouldn't know—and if I do know, I'm not going to tell you. When he is going to make the announcement, he will tell me and I will tell you."

All of which seemed to add up to one thing: That the "word" place to find out what Mr. Eisenhower intends to do is right here where the President is hunting and golfing.

## Rule Insurance Is Payable for Death During Crime

SPRINGFIELD (UP) — The 3rd District Appellate Court held today a beneficiary can collect on an accidental death policy of a person killed while committing a crime of arson.

The court reversed, by a 2-1 margin, the Macon County Court in an appeal brought by Bertha Taylor, beneficiary of a \$2,000 policy held by Frank Owen with John Hancock Mutual Life Insurance Co.

Owen died in a plot with John Louis Owens, no relation, to burn Owens' home and collect insurance. After the two had carried two five-gallon cans of gasoline into the home, Owen asked Owens if he could have some bedsheets that were in the house.

Owen entered the house to get the sheets and was trapped and burned to death when a gas heater ignited the gasoline.

Bertha Taylor claimed the death was accidental because Owen did not intend to kill himself.

France Drafts  
Disarmament Plan

PARIS (UP)—France announced today she has drafted a "comprehensive" disarmament plan aimed at creating a better atmosphere for solving quarrels between the East and West, including the re-unification of Germany.

French Foreign Minister Christian Pineau told a news conference the French plan is a "blend" of previous plans, including those of President Eisenhower and Soviet Premier Nikolai Bulganin.

Pineau gave few details, but he said the new plan has been completed and will be submitted to the United Nations Disarmament subcommittee scheduled to meet in London soon.

Rep. Wolcott Will  
Not Seek Re-Election

WASHINGTON (UP)—Rep. Jesse P. Wolcott of Michigan, veteran Republican legislator, announced today that he will not seek re-election this year.

Wolcott, who has served in Congress since 1931, said he made the decision to retire "reluctantly."

The 62-year-old lawmaker is ranking GOP member, and former chairman, of the House Banking Committee.

Nation's Defenses  
Inadequate for A-Attack: Radford

WASHINGTON (UP)—Adm. Arthur W. Radford told Congress today that the nation's civil defenses are inadequate to deal with an atomic attack.

Radford, chairman of the Joint Chiefs of Staff, said "probably none" of the 50 major U. S. population centers have an effective civil defense system "at this time."

He said there appears to be confusion about what has to be done in such an emergency. He warned that it is unlikely a master plan can be developed without strong federal leadership.

Radford made the statements in testimony before a House Military Operations subcommittee which is studying legislation to create a civilian civil defense agency in the defense department.

Month-Old Baby to Visit Dentist to Have Tooth Pulled

NEW YORK (UP)—A one-month-old baby had a date with a dentist today and stood to lose his new tooth, a molar.

Doctors said there was no known record of a baby getting a molar at such an early age.

From time to time, they said, a baby develops a front tooth shortly after birth, but a molar was all but unheard of.

Robert Riddle Clinton got the molar two weeks ago when he was only 2 weeks old, his father, Robert Clinton, said.

Clinton, who is an X-ray technician, took the baby to a doctor when the tooth became loose. He said he feared it would fall out and the baby would swallow it.

REPORT ON IKE SENDS STOCKS HIGHER

NEW YORK (UP)—A statement that President Eisenhower has informed close associates he wants a second term sent stocks higher today.

Trading increased with sales to noon totaling 1,250,000 shares, against 850,000 shares in that period on Tuesday. The market was closed Wednesday for the Washington's birthday holiday.

Dow-Jones noon averages: Industrial, 479.45; up 2.52; rail, 159.83; up 0.66; utility, 65.46; up 0.22; and 65 stock, 170.47, up 0.36.

GOP National Committee Celebrates 100th Birthday

WASHINGTON (UP)—The Republican National Committee is celebrating its 100th birthday today.

The committee will hold a "birthday party open house" tonight at its headquarters.

The guest list includes Cabinet members, Republican congressmen and members of the White House staff.

President Eisenhower sent the committee a birthday telegram from his vacation retreat at Thomaston, Ga.

"I salute the vigorous and effective leadership displayed by the national committee and its members throughout the century-long history of the Republican Party," he said.

HERE'S THE PITCH—Bob Feller shows insurance company employees Barbara Waterman and Joan Donovan how to make a sales pitch during a visit to the firm's Hartford, Conn., office. Feller was there to wind up a business deal in which he'll become an insurance agent in Cleveland once his pitching days with the Indians are over.

## Oklahoma City, Seattle, Southern Methodist Join List of Teams for NCAA

By United Press  
Southern Methodist, Oklahoma City and Seattle joined the growing list of teams named to the NCAA's basketball championship today and little St. Joseph's College of Philadelphia just about clinched itself a berth in the National Invitational Tourney by scoring its second big upset in a week.

The NCAA named Oklahoma City (17-5) and Seattle (15-10) to at-large berths in the 25-team tourney. SMU (20-2) became the eighth team when Southwest Conference officials announced the Mustangs as the choice in an unprecedented move. SMU has clinched at least a tie, but its overall record is far superior to Arkansas' (10-9).

Other teams previously named to the NCAA tourney include Holy Cross (20-4, at large), Connecticut (17-8, Yankee Conference), Memphis State (16-5, at large), Marshall (17-3, Mid American), and Idaho State (16-7, Rocky Mountain). First round play gets underway in New York, Fort Wayne and at two as yet unnamed sites, March 12 and 13.

### Hawks Dump Owls

St. Joe racked up its 17th win in 21 starts by upsetting eighth ranked Temple, 77-68, Wednesday night. Last week the Hawks snapped the St. Francis, N. Y., 18-game winning streak. Trailing through most of the game, St. Joe put on a scoring spree in the last four minutes and won going away against the Owls.

The NCAA probably will make a bid for St. Joseph's, but officials of the loosely-knit Middle Atlantic Conference aren't expected to make their choice between the Hawks, Temple, Lafayette and Muhlenberg until next week. St. Joe more than likely will grab at the invitation if the backers of the NIT offer one in the next couple of days, thus paving the way for Temple (20-2) to be named to the NCAA tourney.

Already named to the 12-team NIT carnival are Louisville (21-3), Seton Hall (18-3), third-ranked Dayton (21-2), Niagara (18-5), Duquesne, the defending champion (11-9), Marquette (11-9), Xavier of Ohio (14-8) and St. Francis, N. Y. (18-1). First round play in the NIT is scheduled for March 17 in Madison Square Garden.

Add a little ammonia to the soapsuds for cleaning the bathroom. The ammonia helps give a sheen to tile and will remove most stains.

## Bull Dogs Play at W. Frankfort Friday, Johnston City Saturday

Harrisburg plays its last South Seven game Friday and a non-conference game Saturday, both away from home, to round out a season that has brought three wins, one in conference play.

The locals won one of its two games with Benton in the loop, and defeated Johnston City and Eldorado in other tilts. Eldorado won the two scheduled games from Harrisburg and bowed in the Saline county tournament. Benton won the South Seven game played at Benton and the Bull Dogs took the contest played here.

There is a remaining contest with Johnston City, the Saturday

night affair that will close out the regular season.

The Friday night foe is West Frankfort and it is the last South Seven game for each team. Frankfort won a close contest from Harrisburg in Davenport gym but this week the Red Birds will be without their ace center, Paul Peeler, who was dropped from the squad.

League-leading Herrin has a couple of conference games this week and must cup both of them for a clear tilt. The Tigers go to Benton Friday night and to Centralia the following evening. Mt. Vernon already has completed its schedule with two losses compared with a single loss for Herrin.

That takes care of the South Seven games for the rest of the year. Other week-end contests are:

Friday night: Eldorado at Metropolis, Carrier Mills at Rosiclare, Brookport at Cave-in-Rock, Mt. Vernon at Murphysboro, Salem at Effingham, Marion at Paducah, Johnston City at Zeigler, Trico at Anna, Centralia at Canton, McLeansboro at Du Quoin and Sparta at Chester.

Carrier Mills plays at Eldorado Saturday night.

Following the week-end play the teams will be engaged in the regional meets. At McLeansboro it will be Shawneetown vs. Ridgway, then Harrisburg vs. Eldorado on Monday night and Carrier Mills vs. Equality, then McLeansboro vs. Norris City on Tuesday night. There will be a semifinal game on Wednesday night, another on Thursday and the finals Friday.

One area team, Galatia, goes to the West Frankfort regional where the Bearcats will meet the host team in the first game.

## Harrisburg, Carrier Mills Eliminated from Grade School Tourney

Harrisburg and Carrier Mills both were eliminated from the state grade school basketball tournament being played at Marion by suffering defeats Wednesday.

Harrisburg bowed to Mt. Vernon, heavily favored to capture the title, Wednesday afternoon by a score of 81-56. In last night's session Carrier Mills lost to Flora 68-51.

In other quarter-final games Marion won from Bridgeport 57-53 and Centralia beat St. Mary's of Herrin 63-33.

Tonight's semifinal games will have Marion meeting Mt. Vernon and Centralia facing Flora. The tournament will close Friday with consolation and championship games.

## Thompsonville Defeats Waltonville In District Tourney

Thompsonville advanced to the semifinals of the Waltonville district tournament by winning from the host school Wednesday night, 48-42. Ashley was the other winner last night, beating Valer 62-48.

Thompsonville led Waltonville at every quarter, getting away to a 14-4 lead at the end of the first period, was in front 23-20 at half-time and 35-30 after three quarters.

In tonight's session Woodlawn plays Dahlgren and Thompsonville faces Ashley.

The championship game will be played Friday.

Scoring—Thompsonville: Hogsdon 12, Doss 14, Marsh 10, Absher 7 and Gregory 5; Waltonville: McGowan 21, Newell 6, Walker 8, Dees 4, Wilson 2 and Gajewski 1.

## Fight Results

RICHMOND, Calif.—Larry Vasquez, 130, San Francisco, stopped Cleo Lane, 131, San Francisco (10).  
SAN FRANCISCO—Eddie Machene, 133, San Francisco, outpointed Julio Mederos, 191, Cuba (10).

## Women Pros Salute Babe Zaharias in Cancer Fund Meet

SARASOTA, Fla. — The women who respect her the most, the professional golfers who battled her in many a big money tournament, saluted Babe Didrikson Zaharias today in the \$5,000 cancer fund meet that bears her name.

A field of 69, headed by defending champion Betty Jameson of San Antonio, Tex., was entered for the event known previously as the Sarasota Women's Open.

Three Illini were in the top 10 scorers, George BonSalle with a 19.2 average, and Billy Ridley and Paul Judson with 19. Harvard Schmidt has a 12.1 average and Bruce Brothers 10 points.

Overall, Illinois has averaged 94.2 points per game in winning all 10 conference starts, compared to the league record for the season of 83.9 set by Illinois last year. Ohio State's Robin Freeman continued to lead the individual scorers with a 30.5 average. Julius McCoy of Michigan State retained second place with a 28.7 mark. Wally Choice of Indiana, the leader in field goal accuracy with a .524 average, advanced to third place with a 21.5 pace.

Defensively, Iowa, runner-up to Illinois in the standings with 1 loss in 10 games, was the league leader, allowing opponents 69.3 points per game.

By United Press  
The Brooklyn Dodgers served notice on their rivals today that winning a world championship hasn't made them prima donnas. Four of the team's highest-paid stars—pitchers Don Newcombe, catcher Roy Campanella, first baseman Gil Hodges and outfielder Carl Furillo—worked as industriously as the lowest sub Wednesday when Manager Walt Alston greeted his "advance guard" of 27 pitchers and catchers.

Newcombe, who had been advised by a doctor to go slow because of a recent virus attack, was the first man on the field. A 20-game winner last season, "Big Newk" looked like an 18-year old minor leaguer determined to win a job by impressing the manager with a fast start in training.

## Complete First Round Play in Local Grade School Tournament

Three games were played in the Harrisburg grade school tournament Wednesday afternoon to complete first round competition. Play will resume Monday, Feb. 27 with semifinal games and the championship games are listed for Tuesday.

In fifth grade competition McKinley beat Bayliss 28-12 and Horace Mann won from Dorrisville 34-21. In a sixth grade game McKinley defeated Horace Mann 31-16.

In Monday's games Dorrisville plays Logan for the right to face McKinley in the finals of the 6th grade tourney and Logan and Horace Mann tangle, the winner to meet McKinley in the fifth grade championship game.

MATERNITY CAR—A new "dodge" was tried recently when a mama rabbit gave birth to a litter in a brand-new, pink-and-gray Dodge. The back door of the car had been left open at a car agency in Cleveland, Ohio. So mama rabbit moved in. Agency owner Alvin Podway, above, has been feeding them and keeping the car motor running each night to operate the heater and warm the furry family. The little ones have been named after models of the car.

DEFEND YOURSELF AT ALL TIMES—That's just what Paddy De Marco didn't do when he got up after being floored by Don Jordan at Los Angeles. De Marco, the ex-lightweight champ from Brooklyn, wanted to quit, and turned around. But Jordan kept on him, banging a left hook to back of neck (far left), then pulling back and planting another left hook on the side of Paddy's neck. The referee finally stopped the bout after Jordan fired a right hand to the back of the head (far right).

## Bob Cousy Leads Celtics to Win Over Lakers

By United Press  
Bob Cousy's not in the running for National Basketball Assn. scoring honors this year but he's still "Mr. Clutch" when there's a game to be won.

Cousy displayed that again Wednesday night when he tallied eight points in the last 87 seconds to give the Boston Celtics a 93-90 decision over the Minneapolis Lakers. Until that game-winning outburst, Cousy had been held to four points.

The New York Knickerbockers downed the Philadelphia Warriors, 117-108, and the Rochester Royals scored a 110-109 triumph over the St. Louis Hawks in the other games.

Ed Macauley was high scorer for the Celtics with 22 points while Whitey Skoog tallied 20 and George Mikan 19 for the Lakers.

Ken Sears scored 23 points for the Knickerbockers and Walt Dukes, reinstated after being fined a total of \$350 by Coach Vince Boryla, tallied 11 in the Knickerbockers' triumph.

Jack Twyman sank two free throws to give the Royals their victory and move them three percentage points ahead of the losing Hawks. Bob Pettit had 22 points for St. Louis and Twyman 29 for Rochester.

## Pope County Five Drops 63-52 Tilt At Brookport

Pope County closed its regular season Wednesday night by dropping a non-conference game at Brookport, 63-52. In a previous game Pope Co. was the winner 66-64.

Last night's decision left Pope Co. with a 10-10 record for the regular schedule and two losses in tournament play.

In 14 Greater Egyptian conference games Pope Co. won five and lost nine and compiled a 5-1 record in non-conference play.

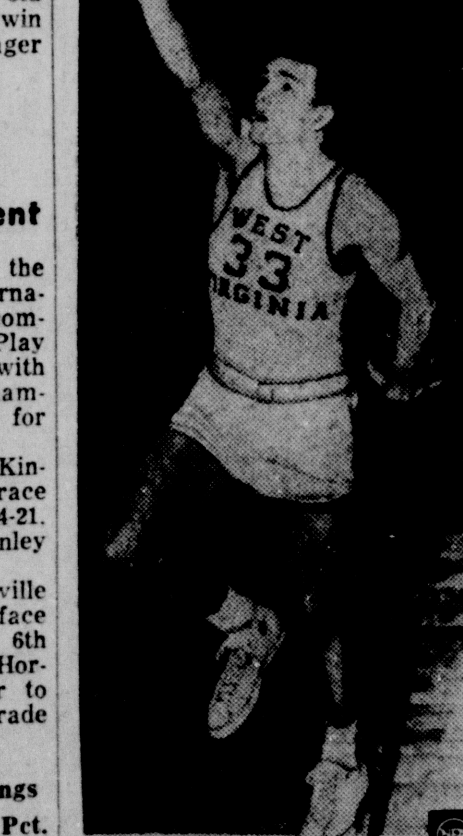

Pope Co. is assigned to the Metropolitan regional tourney and paired with Vienna in opening round competition.

Green and Walker, with 16 points each, paced Pope Co. scoring and Brookport's Cissell was the game's top scorer with 20 points.

The box score:				
Brookport (63)	FG	FT	TP	PF
Schmidt	2	2	6	1
Cissell	9	2	20	1
Edmonds	6	2	14	2
Pryor	4	3	11	3
Reynolds	6	0	12	0
Totals	27	9	63	7

Pope Co. (52)				
FG	FT	TP	PF	
King	3	0	16	2
Green	8	0	16	2
Walker	7	2	16	1
Davis	7	0	4	3
Palmer	4	2	10	0
Totals	24	4	52	7

Score by quarters:				
Brookport	15	14	14	20—63
Pope Co.	14	8	20	10—52

## Hutchinson Can't Miss Making Hit With Card Club Which Must Go Up

By JIMMY BRESLIN  
NEA Staff Correspondent

NEW YORK — (NEA) — The last time we saw Fred Hutchinson, he was stading glumly at the drizzly weather which greeted his Detroit Tigers for a doubleheader at Yankee Stadium. It was late in the season and he wore a black warmup jacket and kept his hands in the pockets.

It wasn't much of a day and the Tigers weren't much of a club on this afternoon, either. They had promise, but it was no secret to Hutchinson that he would not be around to see it develop. You could see that in his face.

From this gloomy setting, Hutchinson went back to the minor leagues. The switch, however, turned into probably the biggest break the old right-hander ever received.

NOW, IN TAKING over the seventh-place St. Louis Cardinals, particularly with Frank Lane as general manager, Fred steps into the best managerial spot in baseball. He is going to run a club which can do nothing but make him look good.

Brooklyn's Fresno Thompson points this out. "The Cardinals last season were the best seventh place club in my time in baseball," he says. "A little better handling of the pitching situation and they almost can't help but finish at least third."

Run down the Cardinal lineup and you see it. How can a club with Stan Musial, Red Schoendienst, Wally Moon, Bill Virdon, Rip Repulski and Ken Boyer finish any place but in the first division?

The answer is obvious: It takes a heap of poor managing to accomplish this. Eddie Stanky, now at Minneapolis, handled the team as if it were a men's lodge and he was the newly-elected grand potentate and imperial wizard. He had a special fine for everything but forgetting to write a letter home. Professional ballplayers cannot be handled like this.

HARRY WALKER CAME ON and he was so nervous it began to appear as if the Cardinal pitchers would wind up in rest homes. If you missed the plate twice in a row, Walker was out of the dug-out to talk to you.

All Hutchinson has to do to look good is sit still and enjoy himself.

The big rap on the Redbirds last season was pitching. But go around the National League and you'll find one baseball man will tell you he likes Larry Jackson, the big right-hander who came up from Rochester last year. Another will tell you that Wilmer Mizell, the left-hander, can't miss being a big winner.

Harvey Haddix, another will say, should have a good year with any kind of luck. Somebody else will out in a plug for lanky Frank Smith, the relief thrower. Then you'll hear so-and-so is high on Luis Arroyo, the left-hander. Willard Schmidt, who came along late last season, is another fine looking right-hander.

"THIS IS A CLUB which won't be in the second division. We're taking that for granted," Lane says. "Catching is a problem. I'm told, Shortstop, too. Well, all I hear, on the other hand, is how good this Hal Smith did behind the bat at Houston last season."

## Lefty Davis Named Top Male Athlete In the Carolinas

HIGH POINT, N. C.—A Johnston City, Ill., youth has been named the top male athlete in the Carolinas during 1935.

He is Lowell (Lefty) Davis, basketball and baseball star at Wake Forest college, who has won the Teague memorial award as the outstanding male amateur athlete in the Carolinas.

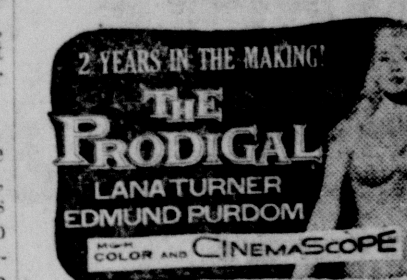

The selection was made by a vote of Carolina newsmen conducted by the Carolinas AAU.

Runnerup was Harvie Ward of San Francisco, formerly of Tarboro, the U. S. Amateur golf champion, and third was Darrell Floyd of Furman, one of the top age scorers of the nation.

Davis received 64 points, Ward 43 and Floyd 42.

# Ike Ordered to Laugh; Golf Is Stern Test

THOMASVILLE, Ga. (UP)—President Eisenhower played his second 18 holes of golf today in two days and his game seemed to be improving all the time.

Mr. Eisenhower's physician, Maj. Gen. Howard McC. Snyder, said he thought the President was playing better today, but "hitting across the ball."

As the President left the course, he remarked that his knee was "bothering" him for the first time in years. He injured his right knee playing football during his cadet days at West Point.

The club professional said the President walked about one-fourth of the way around the course today, riding the rest of the way in an electric golf cart.

The chief executive showed up at the Glen Arden Country Club course at 8:45 a. m. in a smiling, chuckling mood.

He explained to the club professional, John Walter:

"You're going to hear a lot of laughter today. My doctor has given me orders—that if I don't start laughing instead of cursing when I miss these shots, then he is going to stop me from playing golf."

"Every time I miss a shot today you're going to hear me go 'ho-ho-ho'."

Whereupon the President put his new plan of laughing on the outside to an acid test. On the first tee, he sliced and hooked his first three drives into the woods.

His new philosophy sagged badly as he peered grimly into the sun, following the arc of his third shot into the piney woods to the left of the fairway.

"I'll be darned if I am going to start with one like that," he muttered.

Whereupon he whacked his fourth tee shot dead center down the fairway for between 230 and 240 yards.

"I guess I was babying them a bit," he observed as he picked up his tee and walked away.

## Senators McCarthy and Jenner Assail Administration's Foreign Policy

NEW YORK (AP)—Sen. Joseph R. McCarthy assailed the Eisenhower administration's foreign policy Wednesday night and demanded that the United States "encourage" free Chinese, Koreans and Vietnamese to attack the Chinese Communists.

McCarthy and Sen. William E. Jenner of Indiana both were critical of the administration in addresses before a Washington's Birthday rally of the "For America" organization in Carnegie Hall.

McCarthy described Gen. Douglas MacArthur as "the contemporary George Washington" and said "neither Douglas MacArthur nor Washington, if the decision had been his, would have extended the hand of friendship to the Soviet Union as was done last summer at Geneva."

Jenner also leveled a verbal attack at the United Nations and said the U. N. "constitutes a threat to our Constitution and our liberties at home, as great as its threat to our independence as a nation in foreign affairs."

McCarthy said the United States must seek to wipe communism from the earth and said the United States should "encourage" free peoples—especially those in Asia with armed forces at their disposal—to attempt to liberate their Communist-held homelands.

The Wisconsin Republican said, "The free Chinese are willing and able to start liberating their homeland by guerrilla action and

raids against the Chinese mainland. The South Koreans are willing and eager to attempt to liberate North Korea. The South Vietnamese are willing and eager to attempt to liberate North Vietnam."

McCarthy charged that the administration is permitting "alleged allies" to ship strategic war supplies to Russia.

Jenner urged election of an "America First" Congress and said only Congress can stop "one worldism." He said NATO was a little United Nations.

"You know no presidents can solve this problem," the Indiana Republican said. "Every president since 1933 has been a captive of the governmental elite. The Supreme Court will not do anything."

Suede shoes should be completely dry before they are cleaned. Use a rubber sponge or stiff brush, but not a wire brush. Follow the brushing by spreading the liquid dressing in one direction.

Pfc. Frank N. Taylor, 25, son of Mr. and Mrs. Mark Taylor, 1019 South Washington, recently took part in "Operation Snowball," an exercise held by the 7th Infantry Division in Korea. Taylor, a shop mechanic with Service Battery of the division's 49th Field Artillery Battalion, entered the Army in December 1954 and has been overseas since last October.

It takes a GIANT to open up new worlds

New markets can be new worlds to advertisers. But advertisers need the powerful services of a giant to open up their new worlds. This giant is the newspaper—a giant who lives in every town.

When sales-wise advertisers set their sights on a market, they use the newspaper to pin-point it for them much the same way a telescope pin-points stars in the sky.

Over 55,000,000 newspapers are bought daily by people in all walks of life who yearn to know what goes on—around the world and particularly around the corner.

Newspaper advertising is a straight line to sales for retailers, wholesalers and distributors. It moves the merchandise they sell—fast.

In today's competitive market every selling job is a giant selling job. Use a giant to do that job. Use the newspaper.

All business is local... and so are all newspapers.

Two-million dollar giant telescope at Lick Observatory, atop Mt. Hamilton, Calif., will open up new vistas to star-gazing astronomers.

## Capital Perks Up Over Loss of Building Eyesores

WASHINGTON — President Eisenhower is sparking the drive to tear down the temporary buildings that have been Washington eyesores since World War I.

The President appointed F. Moran McConihe, a veteran real estate man and builder, to take the lead in ridding the city of its "tempo."

Just like any other Washington resident, the chief executive has long been annoyed by the unsightliness of the temporary buildings. He frequently has said they should come down.

### Marvels and Hovels

Tourists and foreign envoys have also thought this capital would look a great deal better if the dilapidated frame buildings were to go. One visitor dubbed Washington the "city of stately marvels and unsightly hovels."

Ever since the end of World War II, civic-minded Washingtonians have sought to destroy the "tempo." But each campaign failed for lack of funds and congressional support.

Now, acting as the President's special consultant, McConihe will plan the shift of government employees to better office buildings.

Government employees have complained long and bitterly against the tempo. They've said the buildings are "like ovens in the summer and deep freezers in the winter." In some offices, buckets have to be placed around the rooms when it rains because of leaking roofs.

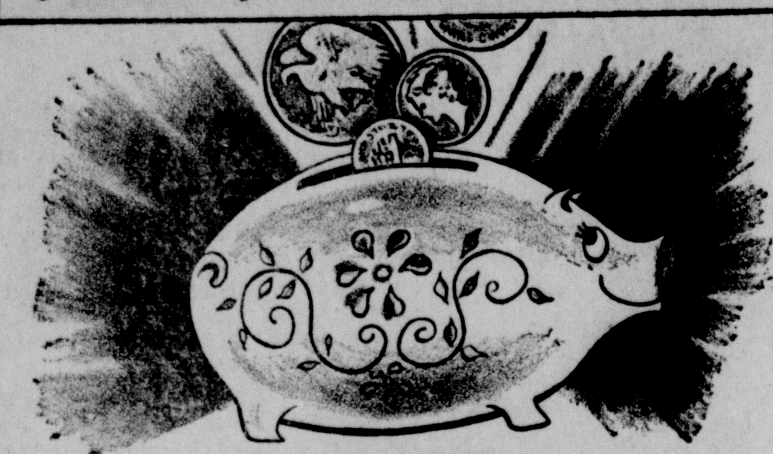

### No Mistake

Most of the tempo were built in 1942 to accommodate the increased wartime employee population. There are about 38 still in use, covering more than 5,000,000 square feet and housing some 39,000 employees. One weather-beaten structure, built in 1917, is still being used by the Navy.

James C. Hagerty, presidential press secretary, said the president expressed satisfaction at the recent removal of a tempo near the White House. He commented that it improved the look of the whole area.

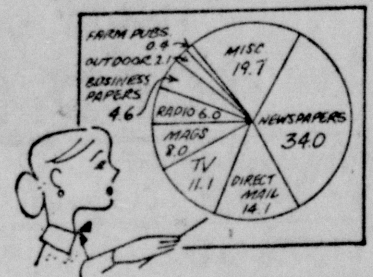

When wrecking crews finally be-

## Thinking It Over— For Lent

By Robt. Dieffenbacher, D. D.  
Written for NEA Service

"Good morning, sir," said the newsboy with a smile. The morning was dull, and the snow was a sloppy slush. A passing car had splashed great blobs of dirt on freshly pressed trousers.

It was a nasty morning, but that cherry word from the newsboy with his emphasis on "sir" was the uplift needed for just such a day.

It was so easy to say "sir." It was a single syllable. It was a word that meant only—well, what did it mean?

It meant respect. It conveyed the idea that the newsboy thought you were important. You were not just a bedraggled wearer of clothes. You were not merely a blur in the passing crowd.

You were a "sir"—an individual—a person—a being.

You smile back. You say, "Good morning." You buy a paper and smile. You enter your office and smile at the elevator operator and he smiles back. The whole elevator is lifted with a buoyancy of fellowship. It is not a dead weight fighting against the pull of gravity.

The wind and the rain have been almost forgotten as you turn your face away from your own troubles and look to God.

"Thank you, Sir," you say, "for that newsboy. Bless him, God, and be with me through every moment of this day. Amen." Prayer can be so easy!

## Antique Shop, in Business 2 Months, Began 10 Years Ago

A new business which had its beginning during the Christmas holiday season is the Border Antique shop on U. S. Highway 45, south of Harrisburg four miles. Mrs. Harry H. (Bessie) Border is the owner.

Although this business is only two months old, it really had its beginning ten years ago, when Mr. and Mrs. Border, who moved to Harrisburg 30 years ago, decided that they would establish such a place before his retirement as electric shovel engineer. All this time she has been collecting for her shop.

It is on the west side of the highway, and in front is a big old fashioned grocery store coffee mill, some antique tables, jars, etc.

Oldest of the antiques is a cherry wood chest of four drawers with rope legs, of the type found in Early American homes. The cherry chest, a bureau which is a beauty, and a little drop leaf table of cherry are the nearest to George Washington's time that the Border antique shop can boast about.

Several hanging lamps, including two of wrought iron with milk glass shades, and a three-armed swinging lamp with delicate grapevine metal trim, a pigeon blood hall lamp, some banquet or pedestal lamps pre-dating many of the Gone-With-the-Wind variety, a set of six cups in tea leaf luster, and a moss rose tureen are the most rare antiques there at present.

Their daughter, Grace, who is employed by the Veterans' Administration in Lexington, Ky., is an avid "antique collector" and is likely to take back with her on a visit she will make soon, the little drop leaf cherry table.

A survey by the South Dakota soil conservation service indicates that shelterbelt windbreaks increase crop yields an average of

eight and a half bushels an acre. Moroccan medicine shops rent dried cobra skins by the day. For headache, they are wrapped around the brow; for a sore throat, around the neck.

## Mother Quits Boat, Unable to Enjoy Trip Without Family

LOS ANGELES — For 10 years Mrs. Laura Evans saved and planned for a trip to her native Hawaii to see her mother.

Wednesday was to see her dream fulfilled. Mrs. Evans, 33, of San Diego, Calif., boarded the Matson Line's Lurline in Los Angeles harbor. Her husband, John, and two of their four children said goodbye in her cabin.

Mrs. Evans thought of the trip taking her to the island of Maui where she would see her mother, Mrs. Mabel Lee. Then, while listening to sounds of farewell parties in adjoining cabins, she began thinking of her husband, their daughters, Susan, 11, and Mona,

9, and sons, Harold, 13, and Erick, 15.

Mrs. Evans started writing a letter to her husband. She thought of her family trying to get along without her.

When she heard the call "All visitors ashore," Mrs. Evans rang for her steward. She ordered her luggage put ashore. Mrs. Evans followed the luggage down the gangway, only 5 minutes before the scheduled sailing.

On the pier she sat on a suitcase and watched the Lurline sail.

"I'll wait until my whole family can go," she said. "Now I have to run. I think I can catch a bus that will get me home in time to make supper."

Let a chicken that's been dipped into boiling water steam for a few minutes in a paper bag before picking. The smallest pin feathers then will come out without trouble.

## 190 Sudanese Suffocate In 'Black Hole'

KHARTOUM, Sudan — An official announcement today blamed suffocation for the deaths of 190 Sudanese cotton farmers jammed into a single room of a "black hole" prison after their arrest Sunday in cotton riots.

Representatives of the White Nile Tenants League said another 150 tenants were killed by police gun fire in new rioting Tuesday at Kosti, 240 miles south of Khartoum. The victims of the "black hole"

deaths were among 334 cotton farmers arrested by police after their clamoring for higher prices for their crops exploded into rioting Sunday. A spokesman for the owners of the Goda Agricultural Cooperative on the White Nile said the Sunday riots were Communist inspired.

The cotton farmers were held in a room at an army barracks in Kosti for questioning. When the doors were opened Wednesday, 190 of the prisoners were dead. Eight others were critically ill.

Official sources said the 334 prisoners were crammed into a single prison ward, measuring 20 by 65 feet, Tuesday morning. Autopsies on three of the victims es-

tablished suffocation as the cause of death, they said.

The tragedy recalled the "Black Hole of Calcutta" in India when 123 of 146 Britons died 200 years ago when they were imprisoned overnight in a cellar during a native uprising.

Next time you plan a tomato juice cocktail as an opening course for a meal, add a dash of powdered dry mustard. It perks up the bland juice.

Safety experts say the danger of overturning a tractor increases four times when speed is doubled.

There are a total of 47 state parks and 13 recreation areas in Michigan.

## HONEGGER LEGHORNS LEAD IN FLORIDA EGG LAYING TEST

Two pens of Honegger Leghorns are leading all entries in the Florida National Egg Laying Test. This contest is made up of 64 entries; 32 are Leghorns, 16 heavy breeds, 6 crossbreeds and 10 hybrids. Latest results show that the two Honegger Leghorn entries not only led all breeds for the month of December, but are the two top pens in the entire test, both in total number of eggs and total number of points. Points are scored on the basis of egg size.

The first Honegger Leghorn pen has averaged 89.3% production to date; the second pen has averaged 89.1%. The average production for all other entries is 73%. These results demonstrate the breeding egg laying ability of Honegger Leghorns.

This year, get Honegger Leghorns and you'll get the best!

**NEW MEMBERS HARRISBURG LIONS CLUB**—The Harrisburg Lions club, in the midst of a membership campaign labeled "Let's Add A Lion" has added several new members to the roll recently. At the regular meeting Monday evening eight of the new members were present. Left to right, Amos Doom, C. C. Porter, Pat Atkinson, L. G. Martin, Donald Cooper, Richard Reynolds, Winston Gideumb and Lawrence Logsdon. Two other new members, Rufus Davidson and Elton Kinser, were not present. The

Lions club, under the direction of President Jesse Gibbons, is sponsoring a big time wrestling match in Harrisburg Saturday, March 24. Proceeds from the match will be used to construct a shelter at Lake Harrisburg. Several acres along the lake shore have been set aside for a park and it is hoped to get started with improvements this spring and the Lions plan to construct the shelter house.

## AROUND SPRINGFIELD

By DON E. CHAMBERLAIN

### Stratton Sees Definite Swing To Highway Speed Regulation

SPRINGFIELD, Ill. (Special)—Gov. William G. Stratton feels there's a definite swing to highway speed regulation, and that a speed limit "undoubtedly will be acceptable to the next session of the state legislature" but that studies to coordinate activities of public and private programs and to improve highway safety should be continued.

He told the Traffic Study Commission which serves as an advisory board to the newly created State Division of Traffic Safety last week that the state is still "woefully weak in police manpower" and that there should be a continuation of education of the public to set up better standards and to keep people aware of need for safety "during their driver lives."

The study commission was created along with the new traffic safety division by the 69th General Assembly for the purpose of developing, consolidating and coordinating effective programs and activities for control and expedition of traffic and for the protection and conservation of life and property on the streets and highways of the state.

The commission is composed of 15 members five of whom are appointed, the other ten being ex-officio members. Ex-officio members are the secretary of state, the attorney general, the state school superintendent, and directors of the state department of welfare, health, labor, conservation and public works, state police chief and the head of the state legislative reference bureau.

Appointed members are Franklin D. Sturdy, former automobile editor of the Chicago Tribune and executive director of a Chicago traffic safety committee; Joseph H. Braun, head of the Chicago Motor Club; C. E. Townsend, Granite City newspaper editor; M. L. Hall, Danville; and Marvin R. Dee, Chicago. Robert A. Campbell, Peoria, head of the Traffic Safety Division, is secretary of the commission.

The Illinois GOP is considering holding its state convention this summer at Bloomington to mark the celebration of the centennial of the party's first state convention which was held in Bloomington in 1856. State Chairman Morton H. Hollingsworth, Joliet, said he sees no objection if the city can assure proper housing for delegates. The centennial celebration is scheduled for May 28-29.

The convention writes the state party platform, elects delegates at

large to the Republican National Convention and nominates three candidates for trustees of the University of Illinois. The state GOP was invited to hold the convention in Bloomington by the Chamber of Commerce there. Under state law the convention must be convened in Springfield but may recess to another city.

Secretary of State Carpenter has no exact figures but says there are thousands of motorists in Illinois who do not have driver licenses. He based his estimate on the large number of persons whose "driving privileges" are revoked. The expression "driving privileges" is used in cases where there are no records of a license having ever been issued for a convicted traffic violator.

Acting State Police Chief William H. Morris, Joliet, reports that use of 28 unmarked squad patrol cars on state highways last month resulted in arrest of upwards of 1,500 motorists on charges of speeding and for other traffic violations. He said it compared with 6,200 such arrests for all of last year. The move was for the purpose of cutting down accidents on the highways.

Morris, who took over in place of Phil Brown, Watseka, transferred to the State Safety Traffic Council, is a career policeman who came up through the ranks. He expects the unmarked cars will net close to 20,000 arrests this year of speedsters and others who run "stop" signs or drive recklessly. Morris said the drive will not mean any letup against gambling.

### To Select Illinois Mother in March

VIRGEN, Ill. — Illinois' mother of the year will be selected sometime in March.

Mrs. A. E. Seymour, state chairman of the American Mothers Committee Inc., said nominations for Illinois mother of the year will be closed March 10, and a judges committee will select the mother to be honored shortly afterward.

Mothers thus honored from the various states will vie for selection as the American mother of the year. The Illinois mother of the year will be honored at her home town in April, and also will attend the national awards ceremonies in New York in May.

Mrs. Charles H. Woods, Lincoln, was named Illinois mother of the year in 1955.

## SIU Camp on Little Grassy to Attract 2,000

CARBONDALE, Ill. — Nearly 2,000 youngsters and adults will hit the camping trail this summer at Southern Illinois university's 700-acre camp on Little Grassy lake.

The camp will attract some 400 more southern Illinois residents than last year, according to Dr. William H. Freeberg, chairman of the SIU Recreation and Outdoor Education Department. The summer program will begin May 1, continuing through Sept. 22.

Situated in the beautiful Crab Orchard National Wildlife Refuge, Little Grassy lake lies about 10 miles southeast of Carbondale, near the north entrance to Giant City State park. Among the new facilities at the SIU camp are shower houses and a dining hall constructed of native stone.

From July 1 through Aug. 11, southern Illinois boys and girls between the ages of 9 and 14 will spend one to three week periods at the camp. As in past years, campers will swim, fish, row, shoot, hike and learn crafts. At the same time, University students will receive training in conservation education, camp counseling techniques, health and first aid in outdoor living, speech and hearing therapy, geology and recreational skills.

Dr. Robert E. McBride, assistant professor of recreation and outdoor education, will coordinate and James Wilkinson, physical education instructor, will direct the program.

From June 17 through Aug. 12 at Giant City State park, summer camping experiences will be provided for handicapped children, including the mentally retarded. Youngsters will use the permanent facilities at the 2,000-acre state park but will swim at Little Grassy lake. Co-sponsoring the Giant City phase of the camping program are the State Division of Services for Crippled Children, and the Southern Association for the Crippled, Inc. (Easter Seal agency). Don Raines, director of athletics at Sesser High school, will be program director.

A new attraction this year will be a Recreational Day camp for young athletes, ages 8-14. In session from 9 a. m. to 4 p. m. weekdays between June 18 and August 10, the camp will be conducted on Southern's main campus.

Training will be offered in football, basketball, baseball and water sports under the direction of Edward (Doc) Bencini, SIU physical education instructor and for-

mer Murphysboro coach. Program chairman will be Carmen Piccone, assistant football coach at Southern.

Arrangements for any phase of summer camping may be made by contacting Dr. Robert E. McBride, SIU Outdoor Education Department, Carbondale.

The word perfume comes from the Latin "per fumum," which means "through smoke."

## Educators to Study Over-Emphasis in School Activities

SPRINGFIELD — A state educational official said today educators, at a series of spring meetings, will take up the question of whether extra-curricular interschool competition for grade school children is being over-emphasized. James W. Lewis, an assistant to Superintendent of Public Instruction Vernon L. Nickell, said the emotional involvement, time and interest devoted to sports, band and art activities may be doing elementary school children more harm than good.

Lewis has been working with an educational study group pondering the question of what kind of extra-curricular activities should be encouraged in grade schools. The study group included representatives from the Illinois Elementary School Principals Assn., school boards, PTA organizations, pediatricians and others interested in the problem.

From preliminary conclusions of the study group, Lewis said, there is a definite need for some de-emphasis of competition at the grade school level.

Some competition is highly desirable, he said, but when it reaches the point where pupils become so emotionally involved it detracts from their studies, it's going too far.

"We feel that much of the emotional tension resulting from intensive competition should be cut out," he said.

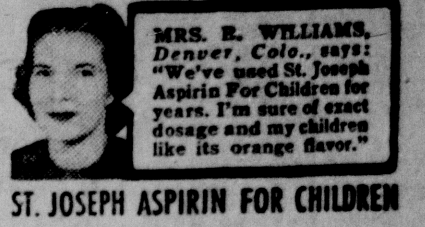

On the sports level, basketball, played in extremely emotional regional elementary school competition, is the worst offender. But Lewis said other extra-curricular activities, particularly band and music contests, are also causing difficulties.

"Athletics have already gone

through this stage, to some extent, but now other extra-curricular activities are going too far. We believe there is serious need to pull these activities into a sensible educational pattern," Lewis said. "Late hours and missed meals,

plus the emotional buildup of the students involved, often can have serious effects on their school work," he added.

The elementary school principals group plans to go into the problem when it meets at Monticello March 18-19. The Illinois Association of School Boards also will consider the problem at a series of district meetings in March, April and May.

MRS. E. WILLIAMS, Draper, Colo., says: "We've used St. Joseph Aspirin for children for years. I'm sure of exact dosage and my children like its orange flavor."

Liquid Miracle! No washday powder ever made can give you the concentrated washing power of new blue instant liquid

# Wisk

The instant Wisk hits water, it bursts into millions of wet, live, liquid suds, liquid suds with concentrated washing power that get out dirt and stains dry, lazy, powder suds can't even budge.

You will pour Wisk into your washer. It will get your family wash so clean and white that you will never use a powder detergent again!

**LIQUID MIRACLE!** Wisk washes clothes whiter than any powder ever made!

**LIQUID MIRACLE!** Wisk removes more stains than any powder ever made!

**LIQUID MIRACLE!** Wisk is safer, much safer, than any powder ever made!

New, blue WISK is completely different from anything you ever tried. In the first place, it is a liquid you pour into your washing machine. It goes to work instantly. No waiting for powders to dissolve.

But, more important, new WISK is concentrated. It does three times as much wash as the same amount of powder. And does it better, too. For it gives you a concentrated washing power unequalled by any powder. Besides, new WISK is safe for hands, safe for fabrics — safe as only a liquid can be.

**MAKES ANY WASHER TURN OUT A CLEANER AND WHITER FAMILY WASH**

Never again need you find a gray spot left in a just-washed napkin, or a lipstick stain in a hand towel, or a grease spot in a suit of coveralls. For concentrated liquid WISK penetrates deep down into cloth fibers in a way no powder can. Safely, but thoroughly, it pulls out stubborn stains, removes hidden dirt, gets everything clean.

And wait till you see what WISK does for shirt collars and cuffs! Without bleaching

**WISK IS UNCONDITIONALLY GUARANTEED!**

We've promised a good deal for WISK and we mean it. In fact, we guarantee it! If you don't agree WISK is the best detergent you ever used — not just as good, but BEST! — Lever Brothers will return the purchase price to you... plus postage!

or bleach, it gets white things up to three shades whiter with the first wash. In fact, WISK gets all your family wash so clean it even smells clean.

**FIRST REALLY ALL-PURPOSE DETERGENT!**

You will use WISK for just about every cleaning job in your home! It makes quick work of dishes: Soaks them clean. Concentrated WISK wipes grease off a stove or kitchen wall. It makes old, discolored linoleum look new. It gets yellowed kitchen cabinets white and shiny again.

WISK does the toughest jobs quicker, easier, more safely than products designed for these tasks. Now you can throw away those harsh and dangerous chemicals!

**NO MORE MESSY, SNEEZY POWDERS!**

And what a blessing WISK is. It does away with "washday hay fever"... with clumsy, soggy boxes... with messy powders that spill. And because WISK does so many jobs so well, you don't have to clutter your shelves with a box for this, a bottle for that, and all those packages a woman used to need.

# "Wisk-it's wonderful!"

YOU HAVEN'T WASHED YOUR CLEANEST WASH...UNTIL YOU'VE WASHED WITH Wisk!

## Location of Proposed Federal Prison is Still Wide Open

WASHINGTON (AP) — Congressional sources said today that location of a proposed new midwest maximum security federal prison is still wide open and will not be decided until Congress puts the money to build it.

One congressman said he understands now the site might be in Illinois, Indiana, Iowa, Missouri or even elsewhere.

The money was requested by President Eisenhower last year but was denied. He renewed the request this year and a House appropriations subcommittee expects to act on it in about two weeks.

Rep. Charles W. Vursell (R-Ill.), whose district includes several cities anxious to be considered as sites for the nine-million-dollar prison, told a reporter Prison Director James V. Bennett advised him several states in the Mississippi Valley might be chosen.

However, no moves will be made to pick a site until Congress has made the funds available. The President asked for four million dollars for fiscal 1957, which starts July 1.

**IPAC Requests Site**

Vursell said he believes Congress this year will grant the funds. However, Rep. John J. Rooney (D-N.Y.), chairman of the appropriations group considering the request, said he did not know yet what the subcommittee will do.

One problem, Rooney said, is the fact that no site has been chosen. "They won't even tell us what state they plan to put it in," he said.

The subcommittee also is considering how badly the extra prison capacity is needed.

Vursell said the first announcement of the new prison plans last year was misleading. It left the impression the site would be at the center of population, he said. This would put it at or near Olney, Ill., in Vursell's district.

Actually, the Prison Bureau had only the general area in mind, Vursell said. He said he understands now the site might be in Illinois, Indiana, Iowa, Missouri or even elsewhere.

The prison will employ about 225 persons, Vursell said he was told. Among cities in his area that have indicated they would like to be picked as a site is Litchfield.

The Illinois Public Aid Commission also has requested that Hardin, Pope, and Pulaski counties in southern Illinois be considered.

### Illinois Indians Used Water, Ashes to Prevent Delinquency

SPRINGFIELD, Ill. (AP) — A historian told today how Illinois Indians used water or ashes to prevent juvenile delinquency.

Dr. Wayne C. Temple of the Illinois State Museum said an 18th Century observer noted that Illinois Indians "never chide or beat" their children for misbehaving.

"They only throw water at them by way of chastisement," he said. Temple said another observer told how the Kickapoo Indians smeared ashes on a child's face to announce he was being punished, instead of beating him.

"The child received no food until the same person who applied the ashes removed them," the chronicler wrote.

Temple said the methods might seem primitive, but nevertheless there is no record of juvenile delinquency among these tribes.

### Revive Church from Within, Billy Graham Tells Japanese Pastors

TOKYO (AP) — Billy Graham today called upon some 3,000 Japanese pastors at the largest gathering of Christian leaders in Japan's history to "revive their church from within."

A spokesman said Graham "is sharing his evangelistic experiences" with Japanese Christian leaders at the pastors' conference at St. Paul's University in Tokyo.

"He is telling them to revive their church from within," the spokesman said.

Tuesday night, Graham delivered a sermon to 20,000 Japanese at a mass meeting in Tokyo.

### 833 New Cases of Measles Reported In Week in Illinois

SPRINGFIELD (AP) — The State Public Health Department today reported 833 new measles cases in Illinois for the week ended Feb. 17, compared with 366 cases for the same week last year.

The new cases brought the total to 4,981, compared with 1,556 for the same period in 1955. The five year median for this time of year is 338.

Dr. Ruth Church, head of the communicable disease control division, said last week measles incidence runs in cycles and it appears 1956 will be a year of high incidence.

Four years ago, two Rockport restaurant owners, Bill and Melissa Smith, bought a bakery and started producing the tasty loaf commercially. The first day they sold 70. Soon chain stores were clamoring for it. A new plant they were building will bake and wrap 2,200 loaves an hour for shipment to every state and Alaska.

## Sunday School Cannot Fill Entire Needs

WASHINGTON (AP) — Parents who believe that "you can make a Christian of a child merely by sending him to Sunday school" are suffering from a "dangerous delusion," a prominent religious educator said today.

"One of the tragic myths of our time," said Mrs. Marion M. Kellerman, "is the popular notion that you can rely on Sunday school to handle the job of Christian education."

It is "utterly unrealistic," she said, for parents to expect Sunday school to give a child, in one hour a week, all of the religious training and experience he needs to equip him for life.

"Not one child in a thousand can find a meaningful faith in Sunday school unless the lessons he is taught there are lived out at home in a family that understands and upholds the same values," she said.

Mrs. Kellerman has served for more than a decade as director of Christian education for the Episcopal diocese of Washington, and as a top Sunday school adviser to the national council of her church. She is also professor of religious education at Virginia Theological Seminary at nearby Alexandria, Va.

She said in an interview that not even an ideal Sunday school—with abundant classroom space, fully trained teachers and up-to-date curriculum materials—could do the job which many parents seem to expect of it.

And the average Sunday school, she added, does not approach these ideal requirements.

"The Sunday schools are caught in the same crisis as the public schools," she said. The tremendous influx of children since World War II—reflecting both a higher birth rate and the nationwide resurgence of interest in religion—has pushed enrollment to a record 37 million and has put a heavy strain on available facilities.

Thousands of Sunday schools are so overcrowded, said Mrs. Kellerman, that classes are being held under conditions approaching bedlam. "The children can't hear the teachers, and the teachers can't hear the children."

### Fisherman's Impromptu Bread Goes Commercial

ROCKPORT, Mass. (AP) — A fisherman's impatience with his wife's dull cooking provided a recipe and a trade mark for a popular brand of bread — 100 years later.

The wife always gave the fisherman corn meal mush and molasses for dinner, so the story goes. One day about 1850 he mixed this all-too-familiar food with some flour and yeast and baked it as bread.

"Anna, damn her!" he muttered as he kneaded.

But his neighbors tasted it, and soon they were baking "Anadama" bread in their own ovens.

# Just a Corpse at Twilight

By Robert Martin

THE STORY: James Bennett, a private investigator, found the body of a widow, Mrs. Alice Osborn, apparently murdered. Bennett had been investigating the death of Mrs. Osborn's husband, Frank, to learn if it was from industrial causes. Dr. Dick Jarrett, the coroner, has voiced his opposition to an autopsy on Frank Osborn. While Bennett is visiting Lucy Dorn, a young woman mystery story writer, Jarrett calls and asks her to go away with him.

XV

He stepped forward and grasped her arm. "You know you love me, and now I'm free." He shook her a little. "I'm closing my office. I can't stay here any more. I'll start over again, but I can't do it alone. You're going with me."

She twisted in his grasp. "Let me go."

"Not until you promise. We can get married in Kentucky."

"No."

He twisted her arm, and there was a cruel twist to his thin lips. I heard her gasp in pain. I strolled into the room. "Let her go, Doc."

He looked at me, surprise in his eyes. Then released the girl. She

# Spring Headlines--Big and Bulky Hats

More hat is the whole hat story for spring. But it needn't be top-heavy. Here are six versions of the new-hat look in scaled-down sizes flattering to any woman. Lace cloche (upper left) by Sally Victor is fragile, feminine and only somewhat deeper than the clothes you've worn in the past. Beatrice Martin's fez in plaid silk (upper center) has narrow brim and a little bow at the back. Totee in smooth navy straw (upper right) has wide banding of draped white organdy with big buckle. This is by Miss Alice. Gustavo gives larger hat look to sleek little cap (lower left) by use of floating brim. This is in white faille straw. Deep-brimmed cloche in scaled-down size (lower center) is in brilliant orange ballbunt straw banded in white organdy. It's a Miss Alice design. Small version of the mushroom hat (lower right) is in white straw finished with flat, tailored bow at eye level.

## Eldorado High School Notes

### HOME ECONOMICS DEPT. HOLDS OPEN HOUSE

The home economics department of Eldorado Township high school is holding open house today from 3:30 p. m. to 8 p. m.

Occasion for the open house is the completion of a project to completely re-equip and re-decorate the culinary section of the department.

Mrs. Paula Smith, instructor, stated all new GE equipment, installed by McKinney Appliance of Eldorado, was now ready for use and patrons and friends of ETHS were invited to visit the department.

There are five complete kitchen units, including electric ranges, sinks and cabinets. However there are only two electric refrigerators and one unit includes washer and dryer and disposal.

New equipment also includes five dinette sets, a large amount of new cooking utensils and dishes.

### SCHOOL COMMENDED BY SIU REGISTRAR

The Eldorado high school has been highly commended in a letter from the Registrar at Southern Illinois university.

The letter, signed by Robert A. McGrath, Registrar, addressed by W. A. Knoop, ETHS principal, states "We are pleased to inform you that of the forty-four high schools with ten or more students entering Southern Illinois university at the beginning of this school year, Eldorado graduates ranked second. This is a very fine record. We appreciate getting the quality of students that come from Eldorado high school."

Eldorado high school chapter of Hi-Y, sponsored by Milton Cox of the ETHS faculty, held an induction and orientation program in the cafeteria of the high school Monday at 7:30 p. m.

Seven boys were inducted into the chapter. They were Bob Barker, Linwood Chandler, Carl Horn, Hal Gene King, David

### Couple Married at Least 82 Years

MEMPHIS, Tenn. — Ned and Rose Kearney have been married so long they can't remember their wedding date, but they figure it was at least 82 years ago.

Kearney, 103, and his wife have one son who is 81, and that's how they figure the date of their marriage.

The Negro couple was married in Sardis, Miss., some time after the end of the Civil War, or "freedom war" as Kearney calls it.

Kearney, who loves fancy vests and just recently got that derby he had wanted for years, says he was born in North Carolina in 1852. He came to Memphis with "a whole trainload of slaves" brought here by Gen. Nathan Bedford Forrest.

"Uncle Ned," as Kearney is known, already has the suit in which he will be buried.

He always wanted a pretty black suit to be buried in "when my time comes," and recently a white friend of the Kearneys bought a "burial suit" for "Uncle Ned" at an auction.

Kearney still gets around some, but his wife can't walk without assistance.

Wisconsin trappers harvested more than \$800,000 worth of muskrat, mink, skunk, weasel, badger and opossum pelts in 1954-55. Pelts ranged in value from \$16.22 for mink to 15 cents for opossum.

## FBI Men Pass Stern Tests

By WILLIAM WARTOFSKY

United Press Staff Correspondent

WASHINGTON — (U-P) — A would-be FBI agent must combine the toughness of an army ranger with the mental capacity of an atomic scientist. And he must be resourceful.

Good judgment is needed to make keen, split-second decisions. For more than one agent has been faced with making a premature arrest which could have prevented his agency from tracking down the real nature of ring operations.

This is the essence of the big law enforcement agency's recruiting policy as framed by Director J. Edgar Hoover.

The FBI requires its aspiring G-men to be U. S. citizens and law or accounting school graduates. They must be at least 25 but not more than 40 years old.

Aptitudes sought are intelligence and the ability to write and speak clearly. Prospective agents must be "clean"—that is, have no criminal record whatsoever. A brush with police during a collegiate prank was enough to reject one man's application.

Applications arrive from all over the nation at the FBI's 52 field offices. Only about one in thousand of these applicants has a

chance of making the grade.

Shoot To Kill

The men who pass the battery of written and oral examinations are then sent to the FBI academy at Quantico, Va. Here they undergo 16 weeks of training beginning with judo and how to disarm an assailant.

The trainees spend endless hours handling different weapons on the firing range. They shoot at electrically controlled targets which dart into view unexpectedly.

An agent never fires except in self-defense. Then he shoots to kill.

Along with physical training the men learn the latest in modern crime detection. Final training and orientation is in the FBI laboratory in Washington. Here they're taught subjects ranging from abnormal psychology to details of some 120 federal laws.

All this training adds up to one thing — an unbeatable esprit de corps in the nation's number one crime-hunting agency.

In 1954, the FBI apprehended 10,182 fugitives and handled about 500,000 investigation matters. The G-men obtain convictions or guilty pleas in more than 90 per cent of their cases.

Game experts estimated that the rabbit population of Wisconsin rose from 1,095,990 in 1954 to 1,364,659 in 1955. In the same period, squirrels dropped from 1,532,056 to 1,207,210.

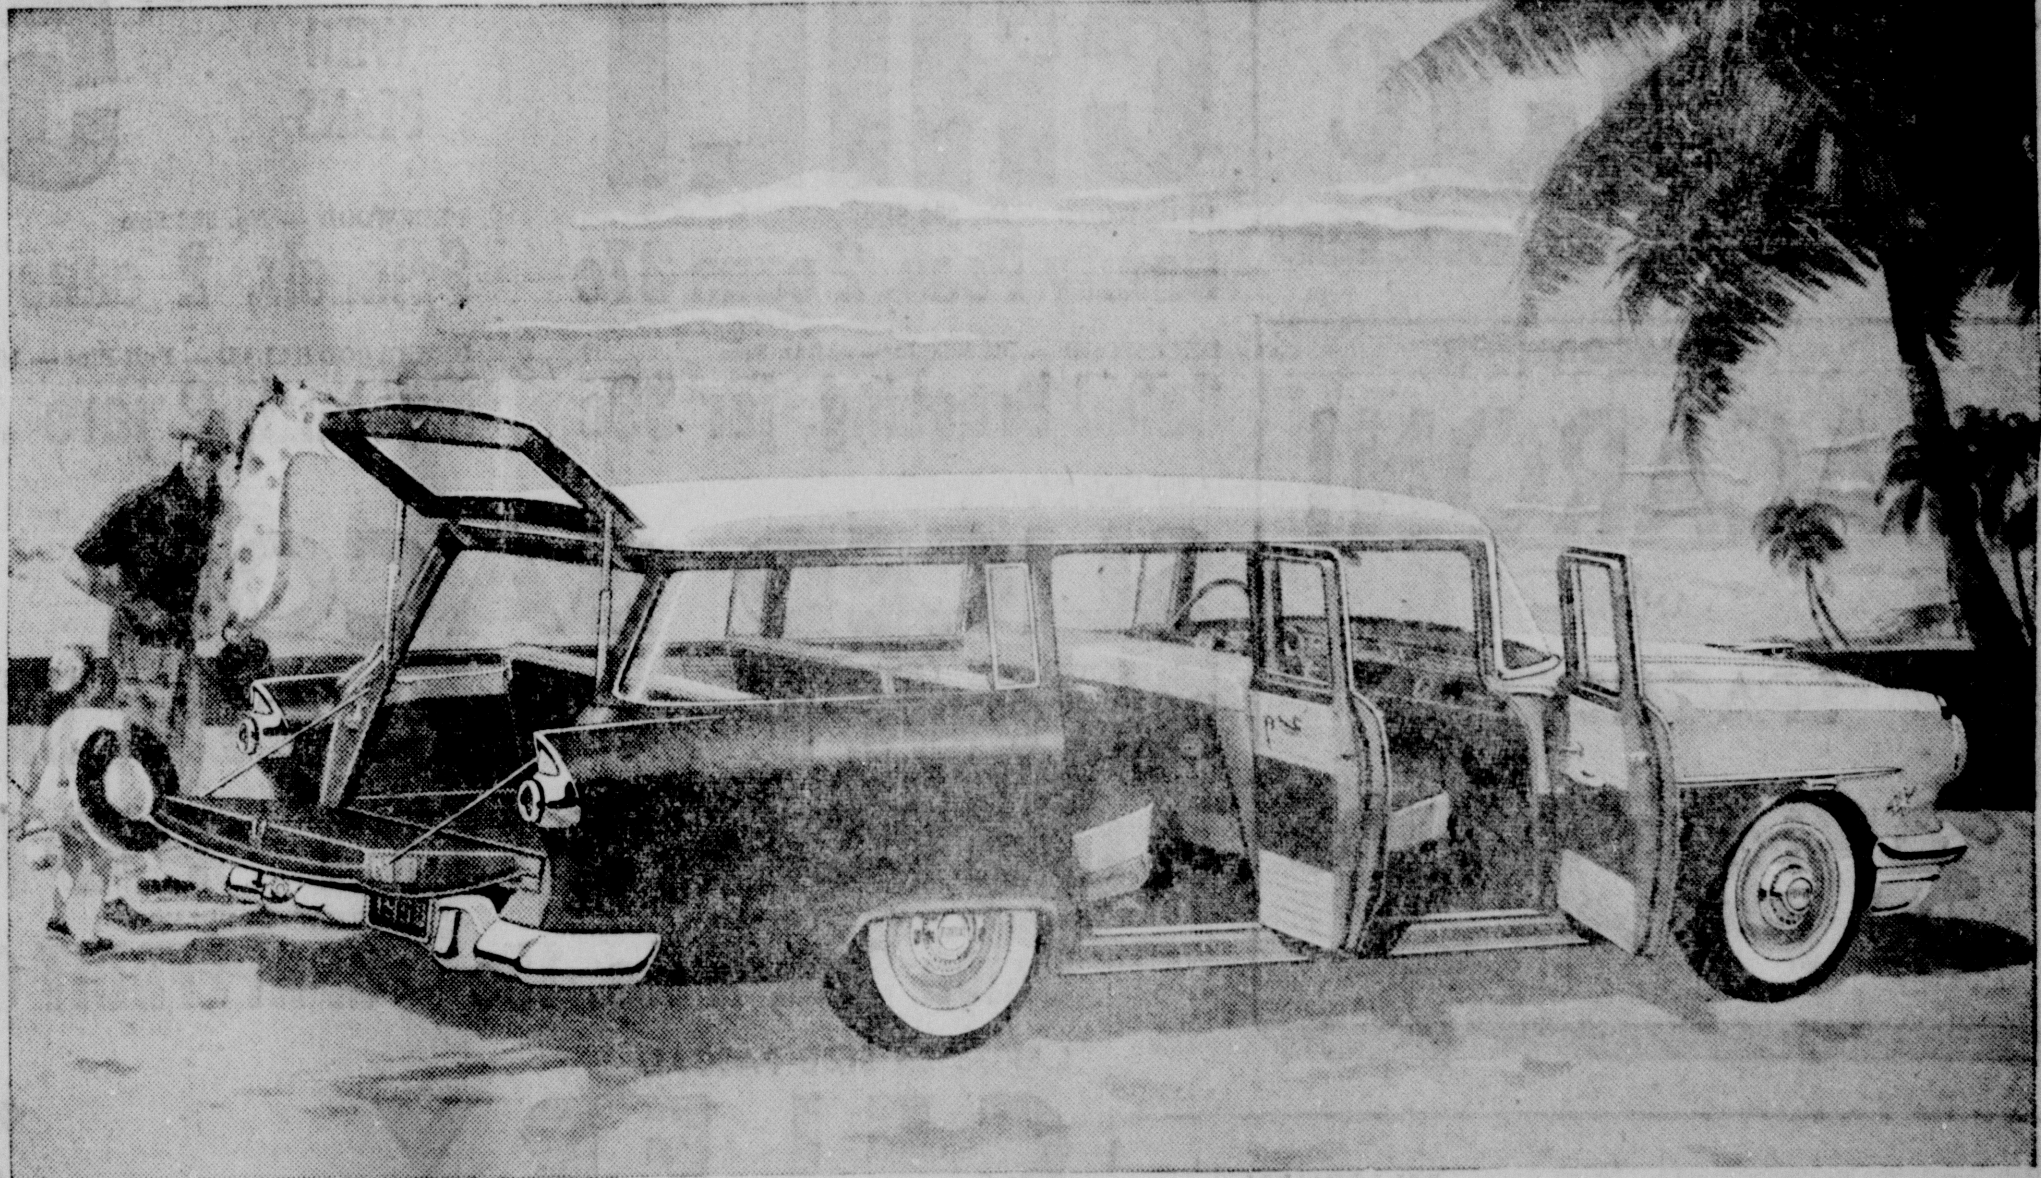

## Home Freezer Owners

You are especially invited to visit the "FROZEN FOOD CENTER" at the Harrisburg Ice Co., located in the Locker Plant at the Corner of Rose and Cherry Streets, and inspect our complete line of frozen foods and meats.

We are proud to announce the FIRST and ONLY Exclusive Frozen Food Store in the State of Illinois.

IT'S CHERRY TIME *yum! yum!*

The family'll go for these  
Washington's Birthday treats

"HOME HINTS"  
by Mary Oble

Home Service Director Corporation  
For a special treat during  
these February holidays,  
serve "1-2-3 Cherry Upside  
Down Cake". It's so easy to  
do!

CHERRY  
UPSIDE DOWN CAKE

- (Makes 8" deep cake)
1. Prepare your favorite  
cake mix calling for milk.  
But, use a mixture of 2  
parts Carnation to 1 part  
water instead of milk.
  2. Melt 1/2 cup butter in  
heavy skillet. Sprinkle  
with 1/2 cup granulated or  
brown sugar. Arrange 2  
cups well-drained canned  
cherries in skillet. Pour  
batter into skillet.
  3. Bake according to package di-  
rections. Turn "upside down" on  
platter. Serve with Carnation  
Whipped Topping.

CARNATION WHIPPED  
TOPPING

- (Makes 3 cups topping)
1. Chill 1 cup undiluted Carnation  
Evaporated Milk in refrigerator  
tray until soft crystals form  
around edges. Pour into bowl.
  2. Whip until foamy, (about 1  
minute). Add 2 tablespoons  
lemon juice and continue whip-  
ping until very stiff (2-3 minutes  
longer). Serve over "1-2-3  
Cherry Upside Down Cake."
